UltraFlat S i.life Shower tray

As one of the leading manufacturers in the bathroom industry, Ideal Standard has an important role to play when it comes to building a more sustainable future.

We have a strong belief that acting responsibly is fundamental to the long-term success of our business and will benefit not only our partners, customers and employees but also the wider communities in which we operate.

This is a comprehensive commitment that touches every part of our organisation, ensuring we are significantly reducing our impact on the environment, producing products that encourage sustainable living practices, focusing on ethical conduct in business and creating a workplace that is safe and equitable for everyone.

As recognition for our ongoing sustainability efforts Ideal Standard has been awarded with the Silver EcoVadis Medal for 2023, placing us in the top 25% of all companies rated by EcoVadis and the top 15% in our industry.

EcoVadis the world's largest and most trusted provider of business sustainability ratings and their accreditation covers four holistic areas: environment, labour and human rights, ethics and sustainable procurement. This is a great achievement that spurs us on to continue improving good sustainability practices.

We have a strong belief that acting responsibly is fundamental to the long-term success of our business and will benefit not only our partners, customers and employees but also the wider communities in which we operate.

This is a comprehensive commitment that touches every part of our organisation, ensuring we are significantly reducing our impact on the environment, focusing on ethical conduct in business and creating a workplace that is safe and equitable for everyone.

For a better planet

Decarbonise

Committed to actively work towards carbon neutrality.

Circular economy

Use recyclable & sustainably sourced materials wherever feasible.

Innovation

Deliver innovative products that encourage sustainable living.

For better lives

Culture

Foster growth in our employees, encouraging social awareness and engagement.

Equalit

Operate a gender and ethnically diverse environment that ensures equality for all.

Safety

Maintain world class safety standards.

For better business

Customers

Safeguard supply chain resilience and customer satisfaction.

Suppliers

Robust governance of supplier commitment to Ideal Standard values.

Transparency

Deliver accurate, transparent and ethical reporting to all stakeholders.

Innovating for a better tomorrow

We strive to be leaders in performance. Whether it's excellence in comfort, safety, hygiene or durability, performance makes everything possible.

To the list can be added sustainability. By combining experience with expertise, we are able to push past limitations into new possibilities, and deliver innovations that help save natural resources, reduce our products' embodied carbon, increase their longevity and promote health.

Discover some of our performance-led innovations that help us in shaping a better tomorrow.

EcoLogic

Making sustainability an easy choice

We want to make it as easy as possible for our customers to make sustainable choices across all bathroom categories. This requires us to rethink our production processes and reduce the ecological impact of our products over their entire lifespan.

That is why we developed EcoLogic – a new approach to product development that focuses on four values, allowing us to integrate sustainability in our manufacturing processes and our finished products.

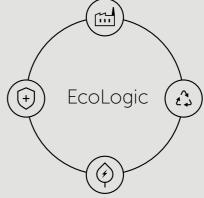

The four values touch every phase of a product's life-cycle and focus on reducing CO₂ emissions and waste, saving energy, water and other natural resources, promoting hygiene and protecting vulnerable users.

Sustainable Value Chains

Redefining the manufacturing process to drive renewable and sustainable transformation processes and transportation.

Elevated hygiene

Promoting health and wellbeing by maximising hygiene and sanitation performance.

Sustainable & **Durable Materials**

Reimagining material design and maximising efficiency, durability and recyclability.

Energy & Water Efficiency

Optimising energy and water efficiency through design and quality.

Aquablade®

Engineered for hygiene.

Silent, superior, splash-free flushing, even at low water volumes.

For spaces where hygiene is paramount, and for washrooms where first impressions are essential, AquaBlade® is the ultimate design solution.

Cleaner

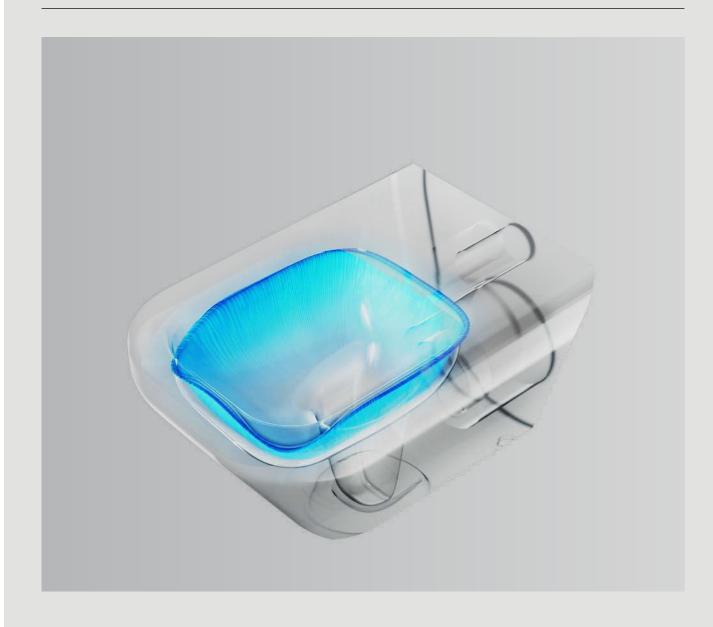

AquaBlade® Technology ensures 95% of the surface is cleaned every time.

Quieter

AquaBlade® is proven to be up to 25% quieter than equivalent models.

Smarter

More effective and efficient use of water compared to standard flushes.

RimLS+®

Engineered for hygiene. With every flush, RimLS+® delivers a powerful whole bowl clean with no place for bacteria to hide.

Splash-free and easier to clean, RimLS+ is the go-to solution for busy bathrooms. 88% of households would buy an Ideal Standard Rimless+ toilet. A toilet with excellent hygiene performance.*

*Result of a user survey commissioned by Ideal Standard and conducted by the institutes TCV-/isi-GmbH [n = 1,000 households with residential property – Germany n=500; Italy n=500], based on the outcome of external tests conducted by X-Tech srl for Ideal Standard measuring hygienic parameters of the toilet flush [unwashed toilet area, number of water splashes]. Scientific Supervision of User Survey: Prof. Dr. Andreas Scharf, University of Applied

ProSys®

Engineered for your peace of mind.

The ProSys® installation system provides complete pre-wall solutions for all washroom fixtures: toilets, bidets and basins. With different products for solid and dry wall applications, ProSys® is ideal for a wide variety of projects. The versatile range combines seamlessly with Ideal Standard's range of ceramics and fittings to ensure optimal performance. With end-to-end quality control and exceeding testing standards, the ProSys® system provides complete peace of mind.

FirmaFlow®+

Engineered to last.

Ideal Standard pioneered the ceramic mixer tap disc cartridge in 1969, revolutionising the way people use bathrooms forever and making it possible to create the single lever tap.

Some 50 years on, the evolution of this innovation, FirmaFlow®+, continues to set the standard for ceramic discs through exceptional engineering and extraordinary durability, offering heat resistance up to 90°C. FirmaFlow®+ delivers incredibly smooth operation for 750,000 cycles, ten times the EU norm (EN817) and enough to last a family of four 20 years*.

750.000+

full use cycles, 10x the European norm (EN817)

90°C

heat resistant

20+ years

of daily use for a family of four

EasyFix+

Engineered for speed.

EasyFix+ enables fast installation in as little as half the time when compared with other standard market taps. Available on selected products from our range of basin fittings, this technology offers quick, effortless installation thanks to Ideal Standard's innovative mounting fixation. With EasyFix+, fitting is fast, fuss-free and secure.

BlueStart®

Engineered for energy savings.

BlueStart® technology enables significant energy savings as only cold water flows when the tap is used with the lever in the centred position.

With standard taps most people turn on the water in the mid-lever position, resulting in a mix of hot and cold water. But very often warm water isn't needed at all. Cold water is usually sufficient for washing hands, brushing teeth or cleaning. BlueStart® technology avoids this unnecessary warm water use, reduces energy consumption, lowers CO₂ emissions and saves money.

BlueStart® iX

Engineered for energy and water savings.

BlueStart® iX is the technology behind our leading-edge iX tap ranges, which offer a smart two-in-one solution, by combining the energy saving benefits of our BlueStart® technology with the hygiene and water-saving features of a touchless tap.

BlueStart® iX offers significant energy savings as only cold water flows when the touchless function is used which is usually sufficient for brushing teeth, washing hands or cleaning. Additionally, it helps save water as the flow stops automatically as soon as the user removes their hands from the sensor detection area. This also reduces the need for cleaning and avoids the spread of germs by touching the tap with dirty hands.

The BlueStart® iX technology is available in a variety of different designs, colours and sizes, offering a flexible, practical and environmentally friendly solution for modern bathrooms.

THE COLLECTIONS

Developed in collaboration with Europe's leading designers, our collections are ideal for every bathroom – regardless of the size of your space, style or budget. With intelligent space-saving ideas and stylish storage solutions, our collections offer award-winning contemporary design alongside authentic period aesthetics – without ever compromising on performance.

I.LIFE

A full spectrum of possibilities.

i.life is a smart, versatile collection where aesthetics, comfort and hygiene come together beautifully. The range is a true example of design that creates a backdrop to modern living; design that feels accessible and practical, no matter what size or shape your bathroom may be. The range compromises three distinct offerings: i.life B, S and A, each with their own design character and features, but all with the same spirit and energy.

SOLUTIONS FOR THE ENTIRE BATHROOM

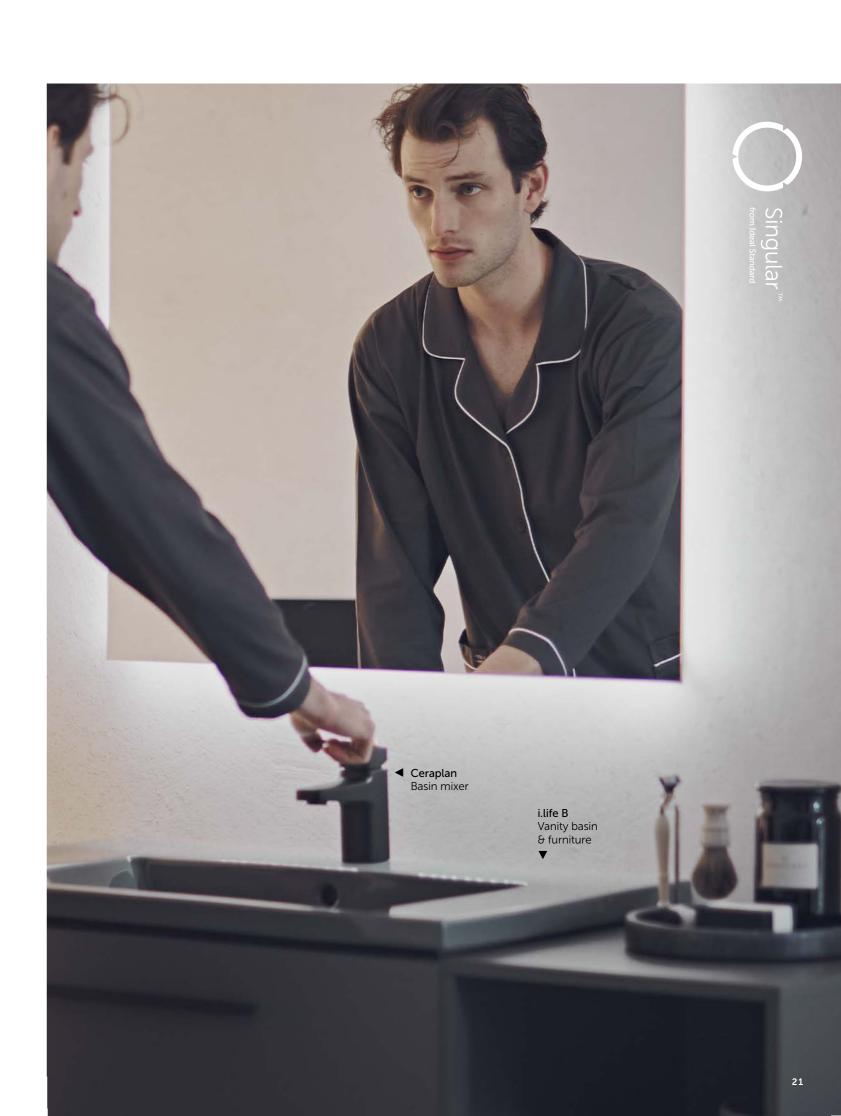

i.life offers products for the entire bathroom including toilets, bidets, furniture, shower trays, shower enclosures and bathtubs. The products can be paired with the versatile Ceraplan taps or other collections from our wide fitting portfolio.

A MODERN GREY FINISH

i.life B ceramics are now available in a sophisticated glossy grey finish. The modern hue adds elegance and refinement to any room. Pairing the pieces with our extensive range of silk black taps, mixers and accessories results in a stylish interior.

SUPERIOR HYGIENE

All i.life toilets feature RimLS+ technology which delivers a powerful whole-bowl clean with no place for bacteria to hide.

Where life just flows.

i.life B has a contemporary minimalism which is softened by gentle curves and flowing lines.

This design aesthetic is reflected throughout a basin range with solutions to suit every shape and size of space, whether it's a family bathroom or a compact cloakroom. Choices span from the larger 120cm basin to the 45cm handrinse basin, with semicountertop, vanity and corner versions also available.

This is where busy days begin and end. A place to look ahead to experiences yet to come and think back to good times with family and friends.

i.life B is an opportunity for expression. A chance to create a home that speaks of you; your personality articulated in design. This furniture collection is available in seven finishes to suit tastes whether understated or bold and everything in between.

Vanity units are available in a choice of heights, with one and two-drawer options, all with soft closing to give a feel of quiet luxury. This is the archetype of light design, where simplicity meets creativity and the results are elegant and effortless.

CARB2 and PEFC certified Production and material

22 I D E A L S T A N D A R D

Clean geometric looks and pure shapes enable Ideal Standard to create a contemporary space that embraces style and strength in equal measure.

The i.life B range brings together performance and design with a clean and elegant look in pure white and chrome. Basins are available in a variety of styles and sizes which match perfectly to your needs, combined with a full pedestal, semipedestal and chrome bottle trap.

The classic Ceraplan brassware collection complements the ceramics with a modern, slim design that echoes i.life B's accessible aesthetic and offers German engineering for long-lasting function without fail. This is where design meets performance and all things are considered.

WHERE FUNCTION MEETS DURABILITY

This is minimalist design without compromise. An effortless and uncomplicated aesthetic combined with the superior performance of our RimLS+ flush technology.

FOR FASTER FITTING

Our Easyfix+ system allows one-person installation with invisible fixings for a clean aesthetic.

I.LIFE S

Clever design that maximises space.

The best design is all about creating products which are quietly brilliant, where quality whispers because it doesn't need to shout.

i.life S is a space saving solution that enhances your home without sacrificing performance or compromising on aesthetics. This is the embodiment of Ideal Standard's ethos of simply making modern living better, with short projection products to work in less spacious environments.

It brings a sleek and contemporary minimalism to any bathroom with a quality of manufacture that means you can leave it to do its job while you're busy doing yours.

Why should smaller rooms miss out on stylish solutions? i.life S enhances compact bathrooms with intelligent touches that simply work.

Reduced projection basins feature clever design to perform perfectly while saving space and staying true to i.life's design principles. These are available in basins from 50cm to 60cm and vanity basins from 50cm to 80cm as well as the 45cm handrinse basin and 50cm semi-countertop.

For the ideal finishing touch, match with Ceraplan brassware, featuring geometric stylings which complement the flowing rectangular design of i.life S.

CARB2 and PEFC certified Production and material

Compact spaces do not have to mean zero storage or surfaces full of clutter. Ideal Standard creates bathrooms that are clean and unfussy, with solutions to simply make life better.

i.life S offers vanity and column units with capacity that belies their size; room for stowing everyday essentials and candles to complement your evening soak. All i.life furniture comes in a choice of seven stylish finishes, including Sand Beige Matt, Carbon Grey Matt and Natural Oak, as well as handles in chrome and Silk Black. Doors and drawers feature soft close action for a subtle touch that adds a feeling of quiet luxury to your home.

A SPACE THAT'S EASIER, CLEANER, CALMER.

This is minimalist design without compromise. An effortless and uncomplicated aesthetic combined with superior performance and durability. i.life S is aspirational but not ostentatious.

It creates a home which looks ahead with positivity and purpose, reflecting your style without dominating it. Toilets and bidets in this collection are available as wall hung and back to wall, as well as a close coupled toilet option.

Cisterns come as standard size and also a water-saving compact design, each with dual flush, and there are four seats to choose from, including sandwich and wrapover versions. These are ceramics to complement your style and last long into the future you are building for yourself.

i.life A brings simplicity and style to your home, combining a sleek aesthetic with luxury touches that just make life better. This vanity basin and unit combination is elegant in design, with pure white ceramics creating flowing lines offset by the modern chrome finish of the Ceraplan brassware.

i.life A allows you to create your world without harming the planet. Ideal Standard is fully committed to reducing our impact on the environment by cutting our carbon emissions, using recycled materials in manufacturing and recycling as much waste as possible.

We also insist that our furniture is built with timber from sustainable sources.

CARB2 and PEFC certified Production and material

I.LIFE A

LIGHT DESIGN CREATES A FEELING OF SPACE; A CALM HAVEN WHERE LIFE JUST FLOWS.

Clean and uncomplicated, i.life A is the epitome of Ideal Standard's enduring design ethos.

Soft round edges and pure white ceramic combine with the chrome finish of Ceraplan brassware for a minimalist contemporary aesthetic. Manufactured using superior materials, with unrivalled expertise and care, these are beautiful products that will stand the test of time.

VERSATILITY TO MATCH ANY TASTE.

i.life A's varied range allows you to choose from basins with vanity unit, pedestal, semi pedestal and chrome bottle trap.

Intelligent touches make the most of space, like this corner basin which is perfect for cloakrooms and smaller bathrooms.

THE EVERYDAY RETREAT

A ritual dating back 4,000 years, bathing has

gained a special place in modern life. It helps to melt away stress, enabling you to reset after a busy day. The i.life collection offers a broader

choice of bath shapes to suit all spaces which

are suitable for built-in and panel installation.

A harmonious blend of practicality, affordability, and style.

- → A wide range of vanity basins for use with Eurovit⁺ furniture
- → Furniture includes a minimalist handle free design and soft close doors
- → All furniture is pre-assembled for ease of installation
- → Ceramic lifetime guarantee
- → 5 year guarantee on all furniture

FINISHES

Furniture

Eurovit⁺ furniture is available in wall-hung models with optional leg sets and floorstanding models, the units are 44cm deep and come in widths ranging from 50cm to 120cm, featuring models with doors or different drawer configurations, all with soft-close high-quality runners for smooth operation. For added convenience, the Eurovit⁺ furniture comes fully assembled and includes wall-mounting hangers, ensuring a hassle-free installation process

CONCEPT FREEDOM

Inclusively designed bathrooms can be beautiful.

Award-winning designer Robin Levien worked with occupational therapists to develop solutions that are both accommodating and aesthetically pleasing.

Concept Freedom is a range of accessible ceramics, baths and showers. Thoughtful design for an independent lifestyle.

- → 60cm basin designed for a wheelchair user to get as close as possible
- → The basin can be hung lower and at the correct height for the individual user
- → Elongated wall hung WC bowl with a 75cm projection for easy wheelchair transfer
- → A lowered bath height of 460mm for easier access
- → The bath has an extra-wide ledge which is reinforced to provide a hand-hold to aid standing and a seating area for a user or carer

WALK IN SHOWERING

A wetroom is the ultimate in luxury but a few additions make it more accessible. The chrome grab rails and shower seat have been elegantly designed to blend in and the Freedom Dual shower valve has pin handles to make the controls easier to turn.

Safer bathing - For the bath project, we combined our many years' experience with the knowledge of later-life health specialists Red & Yellow and experienced occupational therapist Anava Baruch to ensure it was designed with independence and safety in mind.

'Getting in and out of the bath is often the first thing that people start to struggle with as they become less mobile. The design of the bath makes bathing a much less fraught and dangerous experience, whilst looking great too.' Anava Baruch, Occupational Therapist.

FREEDOM BATH FEATURES

- → Winner of innovation of the year in KBB's Retail Design Awards 2017
- \rightarrow A lowered bath height of 460mm for easier access
- → A foot rest provides a step for easier entry and exit. It also aids standing by providing something stable to push against
- → The polyurethane gel headrest has 'shape memory' which responds to the arc of the neck and distributes pressure to provide firm, comfortable support
- → An extra-wide ledge is reinforced to provide a handhold to aid standing and a seating area for a user or carer
- → The bath is made in Idealform Plus+, our strongest material, for complete stability

SHOWERING FEATURES

→ Freedom Easybox thermostatic

with metal pin handles

→ Freedom Dual thermostatic shower

For more info on showers see page 128.

shower valves with metal lever handles

WHEELCHAIR ACCESSIBLE FEATURES

- → 60cm basin designed for a wheelchair user to get as close as possible
- → The basin can be hung lower and at the correct height for the individual user
- → Elongated wall hung WC bowl with a 75cm projection for easy wheelchair transfer
- → Choice of standard, slow close or ring WC seat
- → Hinged arm
- → 45 and 60cm contemporary chrome grab rails for extra safety

WC FEATURES

- → 460mm floor-to-rim height close coupled, back-to-wall and wall hung WCs
- → Elongated wall hung WC bowl with a 75cm projection for easy wheelchair transfer
- → Choice of standard, slow close or ring

- → Arc or Cube shaped internal back rests
- → A simple contemporary design aesthetic that can be combined with other Ideal Standard bathroom suites
- → A wide range of sizes and options that include double-ended and water-saving baths
- → Arc or Cube shower baths combine a generous showering area with a full size bath
- \rightarrow Idealform baths: made from high quality, reinforced cell, cast acrylic sheet which is robust, scratch resistant and lightweight
- → Idealform Plus+ provides all the benefits of Idealform, but with double the reinforcement for peace of mind. The thicker encapsulated baseboard and unique leg set provides a supremely sturdy core, whilst the acrylic outer shell is luxuriously glossy, smooth to touch and resistant to wear and tear.
- → 25 year guarantee

TRADITIONAL ELEGANCE

- → 56cm pedestal basin with one or two tap holes
- → 45cm handrinse basin
- → Four WC models: high and low level suites for an authentic period look as well as close coupled and back-to-wall versions
- → Black or white seat finishes
- → Faithful reproductions from our archives

WAVERLEY

For homes that crave an elegant and traditional look, Waverley offers authentic period style with the quality and reliability of modern manufacturing. Taking its reference from Victorian and Edwardian pieces and faithfully incorporating decorative details it brings a classical elegance to the bathroom and cloakroom.

PROSYS® INSTALLATION SYSTEMS

Engineered for your peace of mind.

There's more to great bathroom design than meets the eye. What goes on behind the wall can be as important as what goes on in front of the wall. The Ideal Standard ProSys range of installation systems and flushplates work seamlessly with our range of ceramics and fittings ensuring every layer works together.

ProSys ensures that you can configure our products not just to create a beautiful design, but one that is easy to install, hygienic and sustainable too. A bathroom that works on every level.

- → Full height and short height wc frames for wall mounted bowls
- → Quality concealed cisterns with service tunnel for use with:
 - Back-to-wall bowls
 - Pneumatic, mechanical and electronic actuation options
- → Special smartvalve inlet valve to help reduce water consumption
- → Comprehensive range of contemporary dual flushplates in four standard finishes plus specialities
- → Luxury electronic plates in ceramic and glass options
- → Compliant with all latest UK water regulations
- → Easy, quick installation and effortless maintenance
- → Washbasin frame options for deck mounted or built in installation

MIXERS & TAPS

The right mixers and taps can transform a bathroom.

That's why our fittings for basins, baths and showers have been designed to make a statement. But they don't just look beautiful. They work beautifully too. Durable. Constructed from the finest materials. And offering unparalleled levels of comfort and control. They feel every bit as good as they look.

PERFORMANCE-LED ENGINEERING

All our fittings are precision-engineered by us. We take great care over every part of the process at our factories across Europe. From the design development to the manufacturing and testing stages, our focus on excellence and quality materials never wavers. This is how we can guarantee perfect performance in your tap.

QUALITY THAT LASTS

We build our products to last. Everything that leaves our factories has been tested to the limit. We subject our taps to burst pressure, so we know the casting is strong and there won't be any leaks. We push our products through thermal shocks to replicate the most demanding conditions. As a mark of our confidence in our taps and for your peace of mind, our collections come with a five-year warranty¹. This is our promise of quality to you. We continue to bring this spirit of innovation to our products, producing cartridges that last for more than 750.000 use cycles, ten times the EU norm (EN817) and enough to last a family of four 20 years².

INNOVATION IS IN OUR DNA

We're focused on the future – and the evidence is in our past. In the 1960s, we invented the ceramic disc cartridge to control water flow with more durability, revolutionising the way people use bathrooms forever and making it possible to create the single lever tap.

EVERYTHING IN ONE PLACE

Through our Singular™ approach we can offer you unlimited inspirational bathroom solutions from a complete range of product categories. That doesn't just include taps and shower fittings, but also ceramics, furniture, bathtubs, trays, enclosures and accessories. It brings together our deep product knowledge, sector expertise and design services to enable you to easily choose from thousands of products and create the right solution for your space. Whatever your bathroom type, design style or specific sector requirements, Singular™ offers everything to bring these concepts to life and to easily adjust them for a tailored result.

 1 Subject to Ideal Standard terms and conditions. 2 Based on five uses per day per person as well as typical water conditions and use.

SINGULAR™ IS WHERE IT ALL COMES TOGETHER

From inspiration to installation, Singular is our end-to-end journey for creating endless cross-category washroom and bathroom solutions for all of our customers. It's built on our understanding of customer and sector needs, and brings together our specification expertise, design and performance to create solutions that make life easier for everyone

CERAPLAN

Ceraplan mixers are more modern, slimmer, simpler, and smoother than ever. We've redesigned a classic piece, updating it to help you face the challenges of modern living, achieving a beautiful balance of style and technology.

- → FirmaFlow® ceramic cartridges with a lifespan of 500,000 cycles
- → Suitable for low and high pressure systems
- → Flow straighteners supplied to maximise flow rate
- → Temperature limit stops can be pre-set for comfort and safety
- → Pre-fitted 5-litres per minute eco flow regulators to save water
- → Easyfix for hassle free installation and reduced risk of leakage and limescale
- ightarrow Flexible tails to simplify and speed-up installation
- → 5 year guarantee

THE RE-DESIGN OF A LEGEND.

Re-designed for the modern world, Ideal Standard's Ceraplan is now slimmer, simpler and smoother than ever. This is the evolution of a classic piece, updated to help you face the challenges of modern living, achieving a beautiful balance of style and technology.

Ceraplan is the perfect companion for i.life, with options to suit basins, baths and showers of all shapes and sizes.

FINISHES

Brassware

AA Chrome

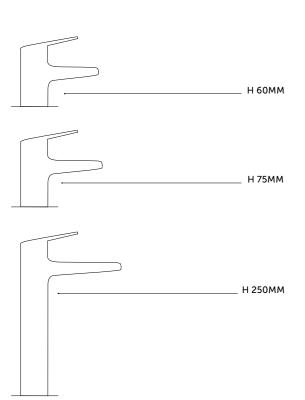

XG Silk Black

88 I D E A L S T A N D A R D

Ceraplan is now more comfortable and ergonomic thanks to adjustments to the spout length and handle height, and easier to clean due to its smoother exterior.

Softened lines on the outside, solid German engineering on the inside – the Ceraplan brassware range is the centrepiece of your bathroom, 20 years in the making.

This is the brassware range for every need. Ceraplan has been designed to suit a wide variety of basin, bath and shower types. This includes standard, vessel, high spout, bidet and wall and rim mounted variations, all drawing from Ceraplan's softened geometric design fundamentals.

CERAPLAN

More modern, slimmer, simpler, and smoother than ever, we've redesigned a classic piece, updating it to help you face the challenges of modern living, achieving a beautiful balance of style and technology. With the option of a Silk Black finish, you don't need to compromise on aesthetics.

A mixer for every situation

Experience the subtle, harmonious control of Ceraplan. Softened lines on the outside, solid German engineering on the inside – the Ceraplan brassware range is the centrepiece of your bathroom, 20 years in the making.

IDEALCOMFORT

→ Ceraplan comes in a variety of what we call comfort height. It means Ceraplan adapts to the usage you will do of the tap and will make your every day more comfortable. Height options from 60mm to 250mm.

EASYFIX+

→ EasyFix+ system makes fitting quicker and easier than ever. It's up to 50% faster than standard fitting, and 15% faster than our original EasyFix system.

LIGHTMOVE

→ Enjoy a great experience thanks to the light smooth cartridge which ensure that the water flow is just right for you.

SMARTSHINE

→ Ceraplan is now easier to clean, thanks to the smooth lines and absence of recesses, and features SmartShine finish making fittings feel as though they've always been part of the space, but look brand new.

PreciTherm®

Engineered for comfort and safety.

Ensuring the ultimate shower and bath experience, the PreciTherm® thermostatic cartridge offers unrivalled levels of durability, safety and performance. Created to prevent potentially harmful fluctuations in water temperature, Ideal Standard's intelligent engineering prevents sudden surges of hot or cold water from causing discomfort or, at worst, scalding.

Rises or drops of up to 20°C are possible with nonthermostatic mixer valves, when a toilet is flushed or a hot tap is run elsewhere in the building, for example. With PreciTherm®, the maximum fluctuation is 1.5°C for up to two seconds before the temperature rebalances.

CoolBody

Engineered to protect.

Whatever your preferred temperature, CoolBody from Ideal Standard ensures shower mixers stay cool to the touch. Our proprietary technology ensures hot water flow is always surrounded by cold water, keeping the external surface cool to the touch.

This protects users of all ages from accidental scalding and offers total comfort of use, as the thermostat is never too hot to operate, no matter how you like your shower.

Alu⁺ is a youthful showering range, which is as creative and expressive as you want it to be. Available in three low-sheen finishes – Silk Black, Rosé and Silver – this collection seamlessly blends long rectangular lines with perfect circles for a look that's both striking and fun.

Not purely about aesthetics, Alu⁺ features useful practical touches, including storage shelves and matching beauty bars. Furthermore, the range is 100% free from chrome, lead and nickel and made from high quality, recyclable aluminium. The shower systems can be paired with matching basin fittings in the same colours and style.

- → Three colour finishes
- → Two function rainshower and handspray
- → Cerafine O basin mixers to complement the look

SILK BLACK

SIMPLICITY IS THE KEYNOTE OF TRUE ELEGANCE

Getting ready just got easier. Create a hair and make-up space that's just how you want it, with adjustable shelves, container and mirror on a smaller, medium or large riser.

112 IDEAL STANDARD ALU+ 113

Shower your way with the choice of overhead rainshower, with Rain and SilkRain jetsprays, and handspray, which also features two modes.

PRICES RRP INC VAT CERATHERM T25 120 IDEAL STANDARD 121 Ultra slim German engineered shower mixers; superior water tightness and flow performance that are simple to install, by design.

This thermostatic built-in shower mixer is available in a choice of round or square faceplate. The Concept Freedom version features lever handles to make showering easier for those who find turning controls difficult.

CONCEPT EASYBOX SLIM

- \rightarrow Designed for easy installation
- → The bath shower mixer includes a diverter within the flow control. Turn clockwise for shower flow, anticlockwise to fill the bath (use with Idealfill, page 170)
- → Shower packs include an M3 Idealrain shower kit with a round or square handspray to match the faceplate
- → The handspray features 3 spray modes: rain, fine rain and massage. It includes a removable 8 litres per minute eco flow regulator to save water
- → Thermostatic mixer, faceplate and handles are supplied in one box, as are the shower packs
- → Designed to be installed on low pressure gravity hot water systems (minimum 0.1 bar)¹ and all types of high pressure systems²
 - ¹ Minimum pressure for satisfactory bath fill is 1 bar
 - ²Maximum 5 bar dynamic

ULTRA SLIM SEALING BOX

→ The plastic sealing box fits into a 43mm cavity. The minimum built-in depth of 58mm is accommodated within the cavity, plasterboard, tiling and adhesive.

The plastic sealing box gives increased strength and durability with double sealing to reduce risk of leakage. The front is sealed with a plastic lid which has tapered seals to the main box and around the two handles. The outer chromed faceplate is not sealed and can easily be removed for cleaning.

FACEPLATE

→ Superior chromed metal faceplate with separate flow and temperature controls, including 40°C indicator for safe showering.

THERMOSTATIC CARTRIDGE

→ Proven thermostatic cartridge and flow control to ensure trouble free operation.

THREAD INLET

 \rightarrow Rotating threaded inlet connection for easier connection.

VERSATILE MOUNTING BRACKET

→ The supplied bracket can be fitted to any of the four sides and fixed onto a cross bearer or upright in the cavity wall.

WATERTIGHT

→ Watertight, solid brass body construction for durability.

STEP-BY-STEP EASY INSTALLATION

- 1. Fix the mixer body into position.
- 2. Connect the pipework.
- 3. Make good the wall by plastering around the mixer, up to the plaster guard.
- 4. Fix the waterproof membrane with tiling adhesive.
- 5. Tile the wall.
- 6. Trim back the mixer body flush with the tiles.
- 7. Fit the sealing plate.
- 8. Attach the faceplate and handles.

WATER SAVING → Flow restrictors reduce water consumption to 8 litres per minute

3 SPRAY MODES → A choice of three shower modes in one handset.

CERAMIC DISC → A ceramic disc water flow cartridge that is robust, drip-free and impervious to lime deposits

SAFETY STOP

→ Limits outlet water temperature to 40°C to protect vulnerable users, with manual override

HIGH PRESSURE → Product only suitable for high pressure installations with a minimum 1 bar

COOL BODY

→ Body remains cool to the touch at all times to ensure safer use and prevent burning

GUARANTEE

→ All Idealrain showers are guaranteed for 5 years

WHICH SHOWER MIXER?

An installer will help you identify the perfect combination of mixer and shower kit for your hot water system. This page helps to identifies some of the main features to help you compare products.

THERMOSTATIC

This is the safest type of shower. Thermostatic valves maintain a constant temperature irrespective of hot or cold water flow, rate, pressure or temperature. There is no need to continually adjust the temperature setting during showering. For the increased safety of vulnerable users many thermostatic valves feature a temperature safety stop of 40°C or a temperature limit stop which can be set to 40, 43, 45 or 50°C

MANUAL

This type of shower relies on the temperature of the hot water system. It does not compensate for variations in hot and cold water flow rate, pressure or temperature. It includes a temperature limit stop with 7 settings to reduce the amount of hot water that enters the mixer.

WATER PRESSURE

Many users prefer the indulgent force of a shower fed by a high pressure, mains water system. An installer will help you identify your water pressure which is measured in bar*, however this is a simple guide to the different heating systems:

Mains water

Combination boilers: between 1 & 5 bar. Vented systems: between 1 & 5 bar. Pumped gravity fed: between 1 & 3 bar.

Gravity fed

Water is stored in a cold water tank in the loft: 0.1 bar.

127

I D E A L S T A N D A R D

 $^{^1\,1}$ bar is equivalent to 10 metres in height between the bottom of a cold water tank and the top of the shower head.

FREEDOM

WHICH SHOWER ENCLOSURE?

Ideal Standard understand what it takes to make the perfect shower environment. The main considerations for planning are access, space and position. From ingenious door mechanisms that work in the smallest ensuite to spacious enclosures for family bathrooms, we have a solution for every conceivable scenario.

Expert engineering means our i.life and Connect 2 shower enclosures and bath screens are full of clever features which make them not just a pleasure to use but easy to install, clean and maintain.

IDEALCLEAN

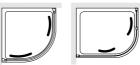

CLICK & CLEAN

- → The cover profiles of i.life and cover caps of Connect 2 click easily into place during installation and combine with top caps to conceal all fixings.
- → Quality components ensure doors glide along effortlessly and silently.
- → Allows perfect fitting to out-of-true walls.
- → Enclosures have been tested to ensure that even with the most invigorating of showers the seals remain watertight.
- → Enclosures, wetroom panels and baths screens have a 10 year guarantee
- → 8mm toughened safety glass.
- → Reduces cleaning time by up to 90%. A special coating makes glass easier to clean and it stays cleaner for longer.
- → Lower wheels and panels can be released for cleaning. The panel clicks back into position for a watertight seal

Corner Installations

Quadrant/Offset Quadrant

These curved enclosures suit almost any bathroom design, creating an open environment, even in restricted spaces.

Pivot Door with Side Panel

These doors swing open to offer wide access, which when combined with a side panel creates a light and airy showering area.

Sliding Door with Side Panel

Sliding doors offer maximum access where there is limited space to open a door. They can also work well in larger spaces to create luxurious showering areas.

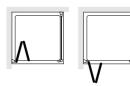

Corner Entry

When space is limited on either side of a shower enclosure a corner entry with sliding doors offers an effective solution.

Infold/Bifold Door with Side Panel

When there isn't room to open a door an infold door is a good solution. It offers wide access in tight spaces.

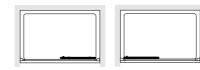

Alcove Installations

Sliding Door

Sliding doors are a practical solution for alcoves, especially larger spaces. The door glides on smooth running wheels for access.

Pivot Door

These doors work well in alcoves allowing the maximum showering area combined with the maximum access.

Infold/Bifold Door

The infold/bifold door is a great option for smaller spaces. It folds inwards to provide full access.

IDEAL STANDARD 141

I.LIFE ENCLOSURES

A place to enjoy me time.

The perfect shower is vital to starting the day well. i.life shower enclosures offer a huge variety of options to suit your space, all with a sleek and minimal design that reflects today's world.

ULTRAFLAT S I.LIFE SHOWER TRAYS

At just 30mm high, UltraFlat Si.life shower trays are as contemporary as they are practical.

Complete with a robust gel coat finish, the stone resin trays boast a quality textured stone characteristic on the surface but also important anti-slip properties, with a Class C anti-slip rating EN16165.

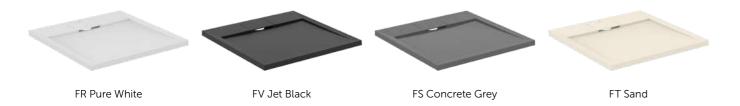

Available in four contemporary matt stone finishes, the comprehensive model range has 27 sizes across square and rectangular shapes.

They can be installed either on the floor, or flush with the floor creating a seamless, luxury feel for a level access installation. They can also be 'installer cut' on site if the installation requires it.

They come complete with a colour matched waste cover.

- → Available in four contemporary matt stone finishes
- → 30mm height
- → 90mm waste to be purchased separately (L6307AA)
- → Waste cover included
- → Stone resin with gel coat material
- → Antislip en 16165 (class C)
- → Stain resistant
- → 5 year guarantee

Simplicity shower trays complement our enclosures. These slim, low profile trays are strong and durable with a clean contemporary design which makes them suitable for a wide range of installations.

- → 40mm height excluding upstand
- → Made from lightweight stone resin
- → Acrylic capped abs offers strength and stability with a smooth, scratch-resistant gloss surface
- → Floor standing or riser installation
- → Slim, low profile trays with a choice of upstand solutions for leak-free installation
- → Supplied with a 90mm fast-flow chrome waste
- → 25 year guarantee

UPSTANDS

Upstand trays feature a water retaining lip around the edge that is tiled into the wall to minimise water leaks (see left).

The shower is installed against the finished wall with plaster board on top of the upstand. The tray is then tiled into the wall by tiling over the upstand onto the tray.

Where an upstand is not required around the whole tray a roll of flexible adhesive upstand is available to purchase which can be cut to size as required.

SHOWER TRAY SHAPES

There is a wide range of shapes and sizes available for every type of installation.

GUARANTEE

Ideal Standard have been producing bathrooms for more than 100 years. Intensive and continuous testing is the key to class-leading durability. Designed to endure the impact of daily use all of our products are guaranteed to perform stylishly and reliably, year after year.

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water by-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

For full conditions, please refer to our website: www.idealspec.co.uk/support/guarantee.html

Ideal Standard pursue a policy of continuing improvement in design and performance of our products. The right is therefore reserved to vary specifications without notice. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints. Colour reproduction is as accurate as possible within the limitations of the printing process.
