Unlocking the Art of Daily Rituals

In today's fast-paced world, where time is of the essence and self-care is a cherished indulgence, one sanctuary in our homes stands out for its ability to transform the ordinary into the extraordinary: the bathroom. For well over a century, our mission has been to pioneer groundbreaking solutions that elevate the ease and comfort of our daily routines through thoughtful design, innovation, and an unwavering commitment to both our planet and a better quality of life. Our designs transcend mere aesthetics; they are intuitive and intentional.

Envision a bathroom that not only caters to your daily needs but also enriches your life in unexpected ways. The following pages allow you to immerse yourself in the world of Tura, our latest collection inspired by Barcelona's 20th century architecture, where sustainability takes centre stage. Explore the evolution of shower columns becoming sleek, minimalist fixtures that complement any bathroom decor. Embrace a new dimension of colour as you explore taps, furniture and accessories in a variety of tones. And, if you are still torn between the allure of a bath or the convenience of a shower, our insightful feature on the subject will help you make an informed choice for your daily sanctuary.

EDITORIAL STYLE GUIDE

Every great design hinges on the finer details. Whether it's a subtle curve or the choice of the perfect materials, these elements have the power to transform an ordinary object into something extraordinary. Considering everything down to the smallest details, the Tura Collection, designed by Andreu Carulla, makes a functional bathroom collection not only aesthetically pleasing, but one that opens up new design possibilities for the bathroom space.

Drawing inspiration from Barcelona's 20th century architecture, this dynamic collection is infused with the spirit of some of the city's leading visionary architects. Blending sleek lines and geometric elegance, Tura includes washbasins, furniture, complements, bathtubs, toilets, and bidets.

Architectural Details in the Bathroom

7

EDITORIAL STYLE GUIDE

Tura takes its name from the Spanish words for culture and architecture: *cul-tura* and *arquitect-tura*. The ending of a word and the beginning of a concept.

Shaped by Architecture

Leaving an indelible mark on Barcelona's mid-century architects, the connection to the Mediterranean and the constant presence of the sun also resonates throughout the Tura collection. The elegance of a wooden shutter, filtering sunlight with effortless grace, is the cornerstone of the collection. Its linear design and the play of light and shadow is found in the soft textured surface of the large washbasin's lateral shelf. The same design extends to the slatted shelves within the furniture units and the subtly ribbed lines on the underside of the cork lids of the felt storage boxes.

The bathtub's unique stacked design is a nod to protruding architectural structures, creating the illusion of a bathtub floating in mid-air. Its generous and ergonomic form

challenges traditional styles offering both grounded stability and a weightless appearance. A wooden tray is shaped to fit into the upper rim of the bathtub, a simple, understated luxury that redefines the bathing experience.

The toilet and bidet's sculpted designs look like small ceramic buildings when seen from a distance. Their graceful curves extend outwards resembling a set of building blocks. Available in various configurations – wall-hung, floor standing, or close-coupled models – the toilets and bidets bring style and sophistication to any bathroom space. Adding the Roca Rimless® Vortex technology enhances the user experience by minimising noise and reducing water consumption.

Material Innovations

New designs are often led by innovations in materials creating possibilities of new shapes and forms. Stonex® enables the realisation of the ultra-thin, curved form of the bathtub and the stackable outlines of the toilets and bidets. Complementing this, the Supraglaze® glazing resists dirt adhesion, ensuring hygiene and simplifying cleaning.

Like an infinity pool where water seemingly falls into an abyss, the bold and modern washbasins feature an innovative hidden in-sink drain that blends seamlessly with the ceramic basin. Resulting in a smooth expansive surface, this sophisticated design element provides added surface space without complicated plumbing underneath. The asymmetrical washbasins blend effortlessly into the modular furniture unit; their softened edges perfectly form a combination of volumes that make for a more striking design.

Design for Contemporary Lifestyles

Tura's bathroom accessories are designed to be used in a variety of ways, taking into account the ever-changing needs of modern living throughout the design process. Felt boxes made of recycled felt can be placed in the bathroom furniture cabinets or any shelf in the house; the lid can be transformed into a tray to hold soap and other items; and the portable boxes can be used to carry or store items inside or outside the home.

A flexible design principle is further evident in the furniture units, highlighting versatile storage possibilities. These units offer a range of configurations, including one door, single or

double drawers, open compartments, and interior options for slatted or flat wood shelving. The furniture units present a harmonious interplay of squares and rectangles, creating a profound sense of depth. This design approach can be found in both ultra-compact models as well as double-width variations.

The choice of warm and rich tones including light noble grey, light terracotta, light elm and off-white, ensures a timeless aesthetic fitting to any bathroom space.

Tura perfectly captures the essence of Barcelona's iconic mid-century architecture with its understated nuances and perceptive design. Its design ethos balances a sense of playfulness with formal elegance and combines rationality with innovation, resulting in an inspired bathroom collection that transcends the everyday and captures the imagination.

Sustainability in Design

Sustainability is integral to Tura's design philosophy, including every aspect from material choices and innovative technology for water and energy usage to packaging considerations. Embracing the recyclable nature of ceramics – a familiar bathroom staple – Tura goes further by implementing a range of sustainable initiatives. These include the use of long-lasting and sustainable materials, as well as non-plastic and recyclable packaging. The innovative Stonex® material also helps to reduce emissions throughout the product's life cycle.

Introducing unexpected elements, this collection creates a captivating visual dynamic with the combination of Spanish felt sourced from recycled carpets and cork derived from shoe sole manufacturing. Ideal for bathroom environments, these materials not only provide a soft, warm and inviting tactile experience, but also boast exceptional resistance to stains and mildew.

Another remarkable innovation within this bathroom collection can be found in the grey fabric headrests designed to perfectly fit the bathtub's rim. These headrests are crafted from recycled outdoor fabrics, known for their quick drying capabilities and the convenience of machine-washable maintenance.

Express Yourself with Colour

Colour is one of the best ways to bring out your personality in the bathroom, adding emotion, character, and a sense of joy to this space. Gone are the days when bathrooms were just an afterthought in design; today they are hubs of creativity and innovation, with colour slowly creeping in. The key is finding the right balance, selecting colours that are pleasing to the eye and give you an overall sense of wellbeing.

Many people are eager to embrace colour in their bathrooms and are keen to discover how to incorporate it effectively. While painting an entire wall can be a bold statement, starting with taps and everyday accessories is a great approach. The new line of **Sonata** accessories includes chrome and matt black options for soap dispensers, tumblers, robe hooks, towel rails, toilet brushes and toilet roll holders which will all elevate the aesthetic appeal of any space.

Another colour that is making its way into the bathroom space is sand. **Ona** furniture units have taken on this

warm and textural tone that evokes a connection to nature and relaxing days on the beach, particularly when seen in contrast with other nature-inspired colours like green, also found in the **Ona** collection.

Dark blue is a bold yet popular colour choice for any room in the house, and the bathroom is no exception. Three collections offer sophisticated shades of deep blue: matt blue for **The Gap**, steel blue for the **Optica** collection, and night blue for **Tenue**, providing new ways to bring colour into your bathroom.

Matt white is another versatile colour option. Both neutral and contemporary, it enhances the overall style of the bathroom. **Cala** brassware and **Hotels Round** accessories in matt white finish elevate the overall look when combined with white or different-coloured surfaces, be it wooden furniture or sleek black basins.

For those who want to add a splash of colour to their traditional metal-finished tap, the **Nu** brassware collection offers colourful finishes for a playful appearance.

Nu brassware, p. 192
Tenue furniture, p. 96

Hotels Round
accessories, p. 166

If you're looking to make a bold statement in your bathroom, Roca's exciting **Nu** brassware collection demonstrates the transformative power of colour in the bathroom. The introduction of glossy, vibrant finishes like mint green, honey yellow and cobalt blue has yielded impressive results. Big on personality and sophistication, Nu taps are revolutionising expectations in the realm of bathroom design. Available

in three distinct styles and a versatile colour range that extends to glossy white and black, these innovative taps provide a new level of creative freedom in bathroom decor. The diverse range of colours and styles, offers endless possibilities for personalisation. No matter which colour you choose, the accompanying design elements can either embrace bold and colourful tones or stay neutral, with white or soft wood.

Like the perfect belt or shoe that improves your outfit, colourful brassware and accessories can take your bathroom from good to great. Whether it's a bold pop or a subtle matt, colour is a great way to express yourself, adding fun and style into a space that deserves special attention.

The bathroom is a space where style and functionality should be in perfect harmony. Choosing the right piece of furniture is crucial in achieving this balance. Before you start shopping, it's essential to grasp the bathroom's multifunctional nature, serving you from the morning rush to relaxing evenings.

Tenue furniture,
p. 96

Balancing Style and Function

Left page:
Ona furniture,
p. 102

Tenue furniture,
p. 96

Start by assessing your storage requirements. Are you looking to stow away toiletries, towels, and cleaning supplies? Do you need extra space for linens or a convenient spot for laundry baskets? Tenue's modern furniture units provide generous and elegant storage options. It's full-extraction drawers feature a practical divider for large and small items, while an open shelf lets you show off some of your favourite things.

Once you've determined your storage needs, you can start thinking about aesthetics. Whether your existing bathroom design has a modern, minimalist or traditional vibe, there are options to complement every taste. With its stylish fresati wood finish paired with a marble countertop in black or white, **Horizon**'s warm natural tones add warmth, while its sleek surfaces enhance a contemporary look.

Take the time to explore different sizes and configurations to suit your bathroom layout. A double vanity may be perfect for a shared bathroom, while a single vanity with ample counter space can be a showstopper in a master suite. **The Gap** and **Optica**'s highly versatile collections embody style and function. Featuring a range of sizes, configurations, and finishes, both collections easily adjust to various requirements.

Victoria-N furniture,
p.134

Left page:
Horizon furniture,
p.94

The Gap furniture,
p.120

Pay close attention to design details including everything from handles to accessories. These seemingly small elements can make a significant impact on the overall aesthetic of your bathroom.

Opt for furniture adorned with features that complement your bathroom's style such as **Victoria-N**'s collection which features integrated handles and a wide range of colours.

As the world embraces a greener way of living, sustainable design choices are finding their way into every corner of our homes, including the bathroom. And it's not all about saving water and energy; it's about making more conscious choices without compromising on style or function. Enter Tura, a complete bathroom collection deeply rooted in sustainability, incorporating innovative materials like recycled outdoor fabrics for cushions and felt boxes with recycled cork lids. And, like most Roca collections, Tura features materials to withstand the test of time, including ceramic and furniture crafted with responsibly-sourced wood.

This page:

Ultimately, the aim is to strike a flawless balance between practicality and design with furniture that aligns your storage requirements, complements your existing design and focuses on the small details.

Taps and shower columns need to meet a number of requirements in order to reach the desired level of usability and technology. But with a plethora of styles, finishes, and even colours to select from, they have evolved from merely functional accessories to design features that enhance – and perhaps even set – the overall tone of your bathroom decor.

A Perfect Match

T-500 shower,
p. 217

T-1000 shower,
p. 217

A personal choice

For most of us, the shower column is the first device we have contact with when we tumble out of bed and into our morning routine. Selecting one can be a challenging decision, requiring careful thought about what you do or do not want. The height of the column, the shape and angle of shower heads and the ease of thermostatic control should guide your decision, together with the way it combines with your shower or shower-bath and the rest of your bathroom's accessories.

While the trend in recent years has been towards shower columns with an abundance of features, there is a return to streamlined concepts. Incorporating smart features that can reduce water consumption, new designs present a clean look that blends with a modern bathroom aesthetic. With round or rectangular shapes, and a spectrum of colours from black titanium to rose gold, Roca shower columns present an elegant array of looks for the contemporary design lover.

Roca's T-500 brassware presents the utmost design discretion coupled with smart features. Whichever temperature you choose, SafeTouch® technology prevents the mixer from overheating and burning hands, whilst an eco-control limits water flow. The modern cylindrical and smooth design complements any bathroom decor.

Smart Shower,
p. 214

T-500
thermostatic mixer,
p. 217

Form Follows Function

Contemporary shower columns, characterised by clean lines and unassuming style, align perfectly with the minimalist aesthetic. These sleek, unadorned fixtures express a clutter-free bathroom environment where everything has its place and purpose. Considered a classic in modern bathroom decor, Roca's Victoria-T shower column allows you to choose the familiar round shape, particularly suited to spacious wet rooms. Its svelte-like, ergonomic silhouette is adjustable and ideal for family use, while the cylindrical mixer design adapts to even the most compact shower units.

Victoria-T
thermostatic mixer,
p. 219

Smart technology for the bathroom

Already integrated into our daily lives, smart technology has extended its reach into the bathroom. Designed to provide a personalised experience, the **Smart Shower** offers a range of customisable profiles to ensure that the water is at the exact temperature and flow rate that you want. The user-friendly digital control panel allows you to easily adjust the water temperature and flow rate using intuitive touch controls or even the Roca Connect app.

By digitising the shower experience, the **Smart Shower** actively contributes to sustainable water use. Its customisable programme allows you to monitor your water consumption, detecting any potential leaks and estimating excess energy costs. You can also limit the shower time or the volume of water used to fill a bath. With self-cleaning, and pre-set options for filling your bath or turning on your shower, the system transforms the bathroom into a smart sanctuary, and in turn, our everyday well-being.

In Two Minds

Choosing between a bath or a shower

In the realm of domestic spaces, the bathroom stands as a symbol not only of personal hygiene but also of serene indulgence. No other ambience can provide the combination of ritual and solitude, of self-care and wellness. When considering a bath or shower for our bathroom, many of us may limit the decision to space considerations alone, but there is no universal solution.

EDITORIAL STYLE GUIDE

The Ritual of Reverence: The Bath

On a more reduced scale, the asymmetrical design of the **Kauai** bathtub guarantees maximum comfort for one person accompanied by a unique cradling sensation. Available in white or a two-tone finish featuring an outer colour of choice and an inner finish in glossy white, this Stonex® bath is designed for everyday self-pampering.

For more compact spaces, our **Ona** bathroom range provides modular functionality combined with a peaceful aesthetic inspired by the Mediterranean. The **Ona** bathtub, with its generous depth, integrated overflow and subtly organic shape typifies the ethos of a range that brings the beauty of nature into your bathroom.

The allure of the bath extends far beyond its functional role. It's a personal sanctuary, a place where time slows down and the cacophony of the world fades into the background.

For those with the advantage of space, a freestanding bathtub is a symbol of prestige and luxury. Roca's **Ariane** model is the largest of our Stonex® baths. With its graceful oval form, creating a stunning focal point in any bathroom space.

Ona bath, p. 241

Kauai bath, p. 241

An Icon of Bathroom Innovation: The Shower

While the basic concept of the bathtub has remained the same for centuries, the shower has evolved in leaps and bounds. Modern 'wet rooms' provide seamless accessibility, and high-tech shower columns are designed to provide customised temperature and pressure, as well as water efficiency.

One of the biggest breakthroughs of shower design is the floor-level shower tray. Without visual and physical interruptions, the shower becomes one with your bathroom architecture, creating a continuous space that makes any sized room appear instantly larger. Roca's slimline shower trays effortlessly blend with modern bathroom aesthetics. The **Cratos** shower tray boasts an anti-slip finish that lends a subtle and stylish textured appearance. Catering to the detail-oriented bathroom designer, **Terran-N**, offers a choice of finishes and patterns for its grid-style drainage cover.

Shower trays,
p. 248

34

In Two Minds

The enduring question of bathing preferences presents an opportunity for personal expression and thoughtful consideration of individual needs and desires, now and in the future. The bath extends an invitation to luxuriate in timeless rituals, while the shower represents modern technology, adaptability and ease of use. Whichever path you take, seize it as an opportunity to shape an environment that is uniquely yours.

Andreu Carulla

As a child, Andreu Carulla (Girona, 1979) dreamed of becoming an inventor. This is evident in his sustainable designs, full of craftsmanship, which do not disregard technology, innovation, or the simplicity of materials and forms. From his studio by the lake in Banyoles (Girona), far from the hustle and bustle of the big cities, he has been reinventing tableware, furniture, lamps, and interiors since 2005, following a flexible principle: to create pieces with a conscience.

Creative director of Calma, Islet Atelier or El Cellar de Can Roca, some of his creations include the interior of the Spanish Embassy in Helsinki, the restaurant "Normal" in Girona, and the "Calma" chair and "Bolet" stool, among many other small objects of desire that are born of his curious and ever-alert mind.

Andreu Carulla received the ICONIC Award 2023 for Roca's Innovative Tura collection.

Dimensions in mm.

Due to manufacturing processes all dimensions are approximate. Where applicable, height dimensions for the WC pan do not include the seat dimensions and height dimensions for wall-hung WCs include the recommended installation height.

* Please note the custom side lever is reversible and can be installed on the left-hand side or right-hand side.

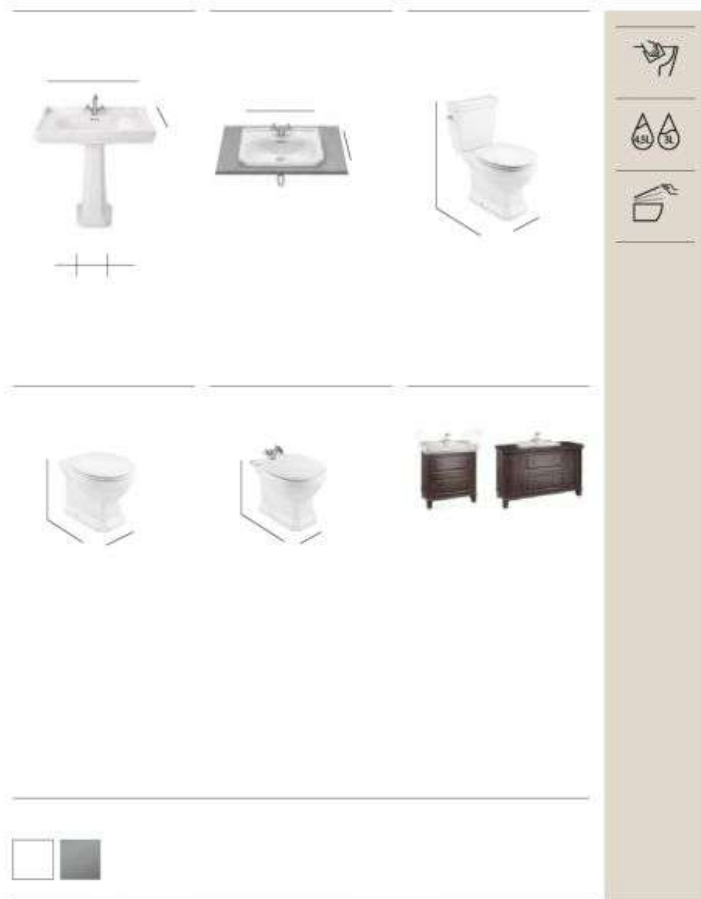

** Please note an additional concealed cistern is required when installing a back-to-wall or wall-hung toilet, please refer to pages 84 - 89 for a selection of compatible cisterns.

Customisable basins - Modo

On a highly aesthetic and functional level MODO has been developed, the first collection formed from a new solid surface material, SURFEX®. The collection is formed of washbasins, shelves and baths, available in a range of sizes.

Modo washbasins are fully customisable allowing you to create a solution for your space requirements.

To build your customisable basin

1. Choose the basin shape, size and taphole configuration, see Table 1
2. Add additional bowls if required, see Table 2
3. Choose basin skirting options, see Table 3
4. Please contact our Sales Office for further details regarding the RRP on 01530 830080

Supraglaze®

Soft close

In-Wash® In-Tank® back-to-wall WC

485

585 385

Integrated cistern
The Soft Air technology propels water from the tank to the upper part of the bowl in a powerful, upwards motion, quietly and effectively flushing the toilet.

Rimless Vortex
A bowl cleverly designed to propel water around in a 360° whirlpool. The asymmetrical shape of the bowl, free of angles and nooks, contributes to a more powerful and efficient flush.

AB03095000 Smart back-to-wall rimless WC pan with integrated cistern, hidden flushers and living kit. Soft-close seat included. £5,301.76

In-Wash® In-Tank® wall-hung WC

480

585 385

Supraglaze®
The inside of the bowl features an additional new glazing, exclusive to Roca, which helps reduce the build up of unwanted bacteria and facilitates the removal of particles.

Controlled flush
A button on the side allows users to activate the full flush manually. Alternatively use two buttons on the base of the remote control for a dual flush that consumes 4.5 litres for a full flush and 3 litres for a partial flush.

AB03094000 Smart wall-hung rimless WC pan with integrated cistern, hidden flushers and living kit. Soft-close seat included. £5,301.76

Soft Air® technology

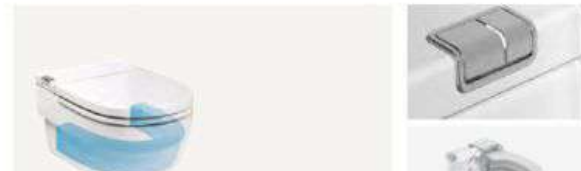

The unique In-Tank Meridian WC is a revolutionary bathroom fitting concept which incorporates the tank in its interior. It is the first WC to offer wall-hung and back-to-wall options which do not require a concealed cistern, facilitating ease of installation and creating an ideal solution for small spaces. Water enters the tank and then air is introduced by a revolutionary blower which has been developed in collaboration with Fluidmaster. This innovative blower pushes the water through the toilet rim to flush the WC. Works on mains pressure only. Requires electricity. For pre-installation instructions please visit www.uk.roca.com

SMART AND INNOVATIVE WCS

Dual flush

Roca Rimless*

Dual flush

Dual flush

Comfort height

Soft close

W+W brings together design and sustainability by combining the toilet and washbasin in one single piece. Complemented by the Singles-Pro tap this solution is the logical choice for situations where sustainability and design excellence are top priority.

All water entering the basin of the W+W passes through an exclusive drainage system. Due to the special filtration system, particle debris is separated out from the waste water, allowing only the liquid to pass directly into a small treatment tank where it is purified. Each flush is made directly from this tank, which is connected to the WC cistern. In this way, the water supplied is clean and hygienic. Thanks to Roca's revolutionary 'water reuse technology' every last drop of this discarded water can now be saved and used again.

Ruy Ohtake
Ruy Ohtake was one of the most well-known and respected architects in Brazil and in the world. Responsible for designing structures across the country and overseas merging technological innovations with an original plasticity. Ohtake's conceptual ideas can be recognised for their extreme sculptural forms and bold use of colour, always creating a sense of surprise.

Studio Inma Bermúdez

Inma Bermúdez (Spain, 1977) and Moritz Kretzer (Germany, 1978) are the two concave and convex faces of the studio that has designed the "Nu" collection. "Moritz is the millimetre, the perfection, the technique," she says. "Inma is the forms, the language, the concept," he replies. With a studio and home in Valencia, they have been working for companies around the world since 2007, creating emotional objects that never lose sight of their function. Their projects combine German essence and Mediterranean light, humour, irony, simplicity and respect for the environment. Their commitment to sustainability dictates the future and increasingly the present, which they imagine as respectful of materials, products and processes.

Smart Shower

Intuitive use

Its capacitive technology and the ergonomic design of its rotating controls make the Smart Shower very user-friendly. Moreover, as its buttons light up when touched, its use is very intuitive, even for children or the elderly.

Smart Shower Pack - 2 outlets round design: Titanium black finish accessories

Smart Shower Pack - 2 outlets square design: Chrome finish accessories

Smart Shower Pack - 2 outlets round design: Chrome finish accessories

Self-cleaning

The Smart Shower has a cleaning program that activates all water outlets, releasing an intermittent high-pressure flow of water to remove lime and impurities, which build up in pipes and jets.

Ultrafine design

The control panel barely sticks out from the wall thanks to its 12 mm thick profile.

Smart Shower Digital Shower

Smart Shower components in the box:

- Smart Shower
- 3 way electronic mixer
- Wi-Fi module (To connect the 3 Way electronic mixer to the mobile app)
- Plastic box to conceal in the wall, to house the Smart Shower panel.
- Power supply - 12V

269

More information:

128

ASA04AC00 Includes components E3,069.01 The main components above are included with the Smart Shower.

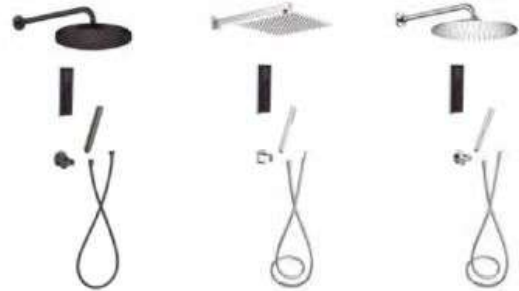

Dimensions in mm. The Smart Shower requires a minimum pressure of 1.5 bar for optimum performance. A shower pump will be required if used with a low pressure water system. Please ensure that you seek guidance from bathroom professionals regarding your installation requirements. If you require further details please contact our Customer Service team on 0130 830080.

Acrylic bath panels

Reinforced standard and tall panels go through a two stage reinforcement process to make them strong, rigid, smooth and glossy. Superthick panels are made from double thickness, high impact polystyrene.

Reinforced tall (540mm high)

Ref.	White	Bilbao	Ebro	Oslo	The Gap	Tortera	Vyhos	Malaga

Antislip
Textured surface that guarantees the highest anti-slip levels, while offering a very natural sensation, pleasant to the touch.

Resistance
Vitreous enamel, exclusive at Roca, that ensures the stability of pieces against abrasive products, extreme temperatures or UV light.

Easy cleaning
The zero porosity of vitreous china prevents the absorption of water and therefore, the build up of humidity and bacteria.

Extraslim
Stylish design that allows its floor-levelled installation, thereby facilitating its perfect integration in the shower area.

About Roca

With 79 production plants across five continents and over 21,000 employees, our mission is to make people live the best bathroom experience.

Roca is a company that specialises in the design and manufacture of bathroom solutions. Since our foundation in Barcelona in 1917, we have continuously grown and expanded. Today, we have consolidated our position as one of the world's leading companies in the sector, with a presence in more than 170 markets.

Throughout our 100-year history, we have consistently demonstrated our ability to adapt to the needs of the users, with the aim of providing the best bathroom experience. In pursuit of this goal, we have continuously incorporated into our products the growing demands driven by changes in household habits, evolving family dynamics, current design and architecture trends, increasing environmental awareness, and the redefinition of the bathroom as a haven for personal wellbeing and comfort.

To identify and integrate trends, we draw on the expertise of our 21,000-strong global team and collaborate with internationally recognised experts in different fields ranging from design, architecture and interior design, to technology and the environment. Our aim is to anticipate and meet our customers' needs through collections that embody the unique style, character and quality of Roca.

Our proposals are characterised by Mediterranean-inspired aesthetics, a diverse range that can be adapted to any space, and the inclusion of

water and energy-saving solutions. This is complemented by the latest technological advances in connectivity, safety and comfort, as well as new materials and finishes.

Environmental sustainability is at the heart of everything we do, from product development – the sourcing of materials, production, logistics, packaging, and transport – to the promotion of responsible practices of product use.

Our commitment to hygiene for all and to sustainable development is realised through the global initiatives of the We Are Water Foundation. For over a decade, the foundation has been dedicated to promoting sustainable and responsible water management practices around the world. In addition to raising awareness and providing training, the foundation sponsors and advocates for programmes that improve access to clean water and sanitation in the world's most disadvantaged regions.

Our commitment to the planet extends into the social field. We are serious about our responsibility towards our employees and the communities we serve, aiming to improve people's lives both within and outside the company. To achieve this, we carry out a wide range of activities around the world to stay in close contact with our valued customers and users. Two of the most popular and widely recognised international initiatives are

the Roca One Day Design Challenge competition, which encourages and showcases the skills of up-and-coming creatives, and our network of Roca Galleries. These galleries host events and exhibitions that allow us to maintain an ongoing conversation with the community. We recently opened a new location in São Paulo, the first Roca Gallery in the Americas. The rocagallery.com platform further encourages reflection and discussion by presenting monographic themes with contributions from esteemed writers.

As a global company, we are present at events of international importance, sharing the values of innovation, sustainability, teamwork, and looking to the future. In 2024, we look forward to our participation in the Salone del Mobile in Milan, a global event for exploring new trends in architecture and design. We will also be present at the sector's leading trade fairs, including Expo Revestir in São Paulo, KBC in Shanghai, and BDNV in New York. In the world of sport, we will once again be an official sponsor at the Shanghai Tennis Masters and will be involved with Alinghi Red Bull Racing in the 37th edition of the America's Cup in Barcelona.

The Main Room on the ground floor of the Roca São Paulo Gallery.

In the glistening waters of Barcelona, where innovation meets tradition, an exciting voyage is about to take place. From August to October 2024, the city will host the 37th America's Cup, a prestigious sporting event where cutting-edge design reigns supreme.

Amidst the sleek vessels and advanced technology, the synergy of teamwork, sportsmanship and the relentless pursuit of excellence will navigate the thrilling course to victory.

It's on this grand stage that Roca, a Barcelona-based company with design, technology, and sustainability at its core, finds a kindred spirit in Alinghi Red Bull Racing. In the pursuit of unparalleled innovation, the Swiss team combines the sailing prowess of Alinghi with the technical brilliance of Red Bull Advanced Technologies. For Roca, partnering with like-minded companies at the forefront of their industries is a core principle that reflects its commitment to excellence in creating the best bathroom experiences.

The collaboration between Alinghi Red Bull Racing and Roca marks a pioneering venture into the future of smart living. Roca's unwavering commitment to the Internet of Things (IoT) aligns seamlessly with the shared goal of technological advancement and innovation. The Swiss challenger's state-of-the-art base in Barcelona's Port Vell, equipped with Roca's smart bathrooms, provides an exceptional opportunity to implement a comprehensive system of connected bathroom solutions.

These solutions include toilets, faucets and smart showers, all linked to Roca Connect, our cloud-based smart bathroom framework. With the integration of IoT, the team will be able to capture and monitor important information and behaviour patterns within the installation's bathrooms, aligning with the sustainable practices incorporated into the Swiss team's facility. These combined efforts aim to optimise maintenance and cleaning costs while promoting a conscientious approach to water conservation.

Barcelona is more than just a backdrop for this partnership; it is at the very heart of it. Roca draws inspiration from the city's essence, creating bathroom spaces that reflect its culture, vibrancy and warmth. This collaboration with the Alinghi Red Bull Racing isn't just about winning; it's about leaving a legacy of positive change in Barcelona, a commitment that both companies embrace.

This union of shared values is a true testament to the power of collaboration, innovation, and a commitment to a better future.

Together, Roca and Alinghi Red Bull Racing are setting sail on a journey where innovation, technology, and sustainability are the guiding stars, creating ripples of impact on the city, the sea, and beyond.
