UK Edition

Ideal Standard

Through our Singular™ approach we can offer you unlimited inspirational bathroom solutions from a complete range of product categories, including taps and shower fittings, ceramics, furniture, bathtubs, trays, enclosures and accessories. It brings together design, performance, our specification expertise and the commitment to build a more sustainable future, allowing us to create inspiring solutions that meet your needs while also being mindful of the planet.

Whatever your bathroom type, design style or specific sector requirements, Singular™ offers everything to bring these concepts to life and to easily adjust them for a tailored result.

DESIGN IS IN OUR DNA

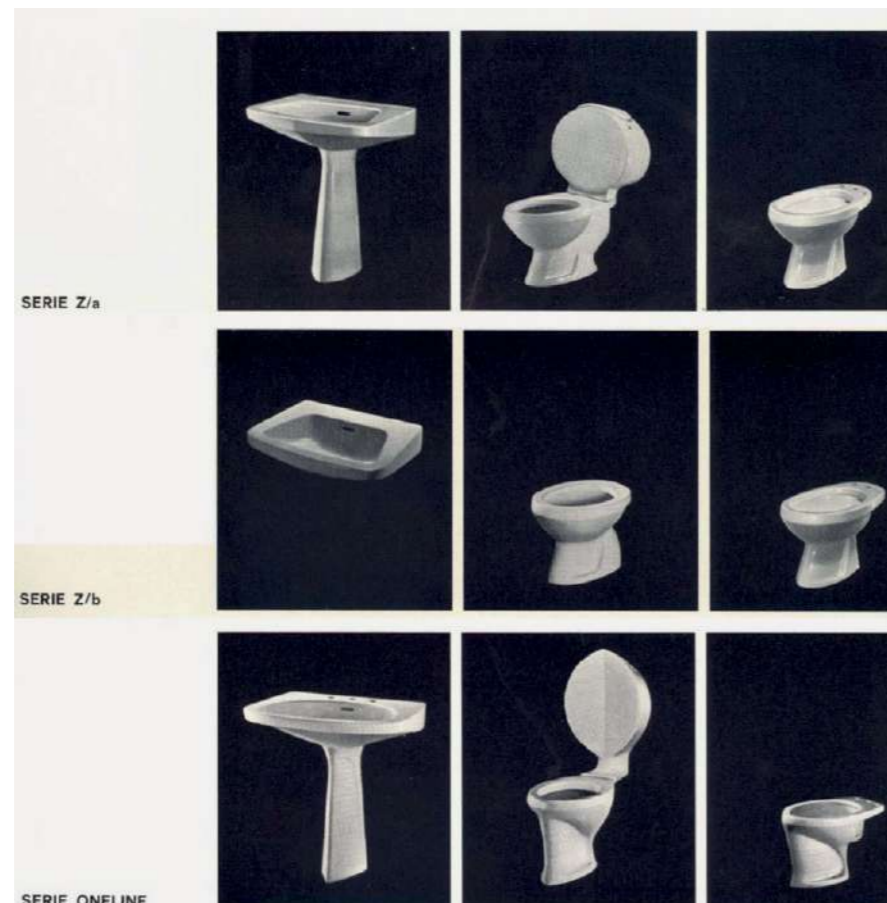

At the heart of Ideal Standard is a passionate belief in the 'eternal value of design.' A belief in its power to change lives for the better. It's a belief founded on our daily experience, and informed by our long heritage of Italian design.

By looking and learning from this heritage, we build on the most outstanding elements of successful collections, and reimagine them for today's world.

By tracing our past and reflecting on the talents of old masters such as Gio Ponti and Achille Castiglioni, we are able to forge the future. In our collaboration with multi-award winning Palomba Serafini Associati, we work to create a seamless synergy of functional perfection blended with aesthetic beauty, embracing innovations and improving design standards as we navigate the constant changes of modern life.

For us, design is vital, craft is essential, experience is everything and quality is second to none.

"The simplicity and the purity of the shapes are synonymous of the balance between function and emotion; an essential beauty..."

Ponti Z, an iconic shape of the fifties and sixties.

The basin is smooth and without reliefs, is trapezoidal: a shape that follows the movement of the arms when washing.

...This is the cultural environment where my work with Ideal Standard takes place and it's no coincidence it takes inspiration from the company's own roots."

ROBERTO PALOMBA

Top: The 1965 setting created for Ideal Standard's Espressioni Room in Milan was designed by the brothers Pier Giacomo and Achille Castiglioni.

Bottom: Another image of an exhibition in the Ideal Standard cultural space, active in Milan in the sixties and seventies.

DESIGN THAT
INSPIRES,
COLLECTIONS
THAT DELIVER

Our heritage, innovation and expertise have given birth to collections made for modern living. Collections that inspire, that expand possibility. Geometric or organic, classical and contemporary, and with products in all categories and colours, we offer you limitless opportunities for self expression. Discover our bathroom collections, including minimalist Strada II, the light Connect Air, the modern, versatile Tesi. Or look further and explore the Atelier Collections and you'll understand the

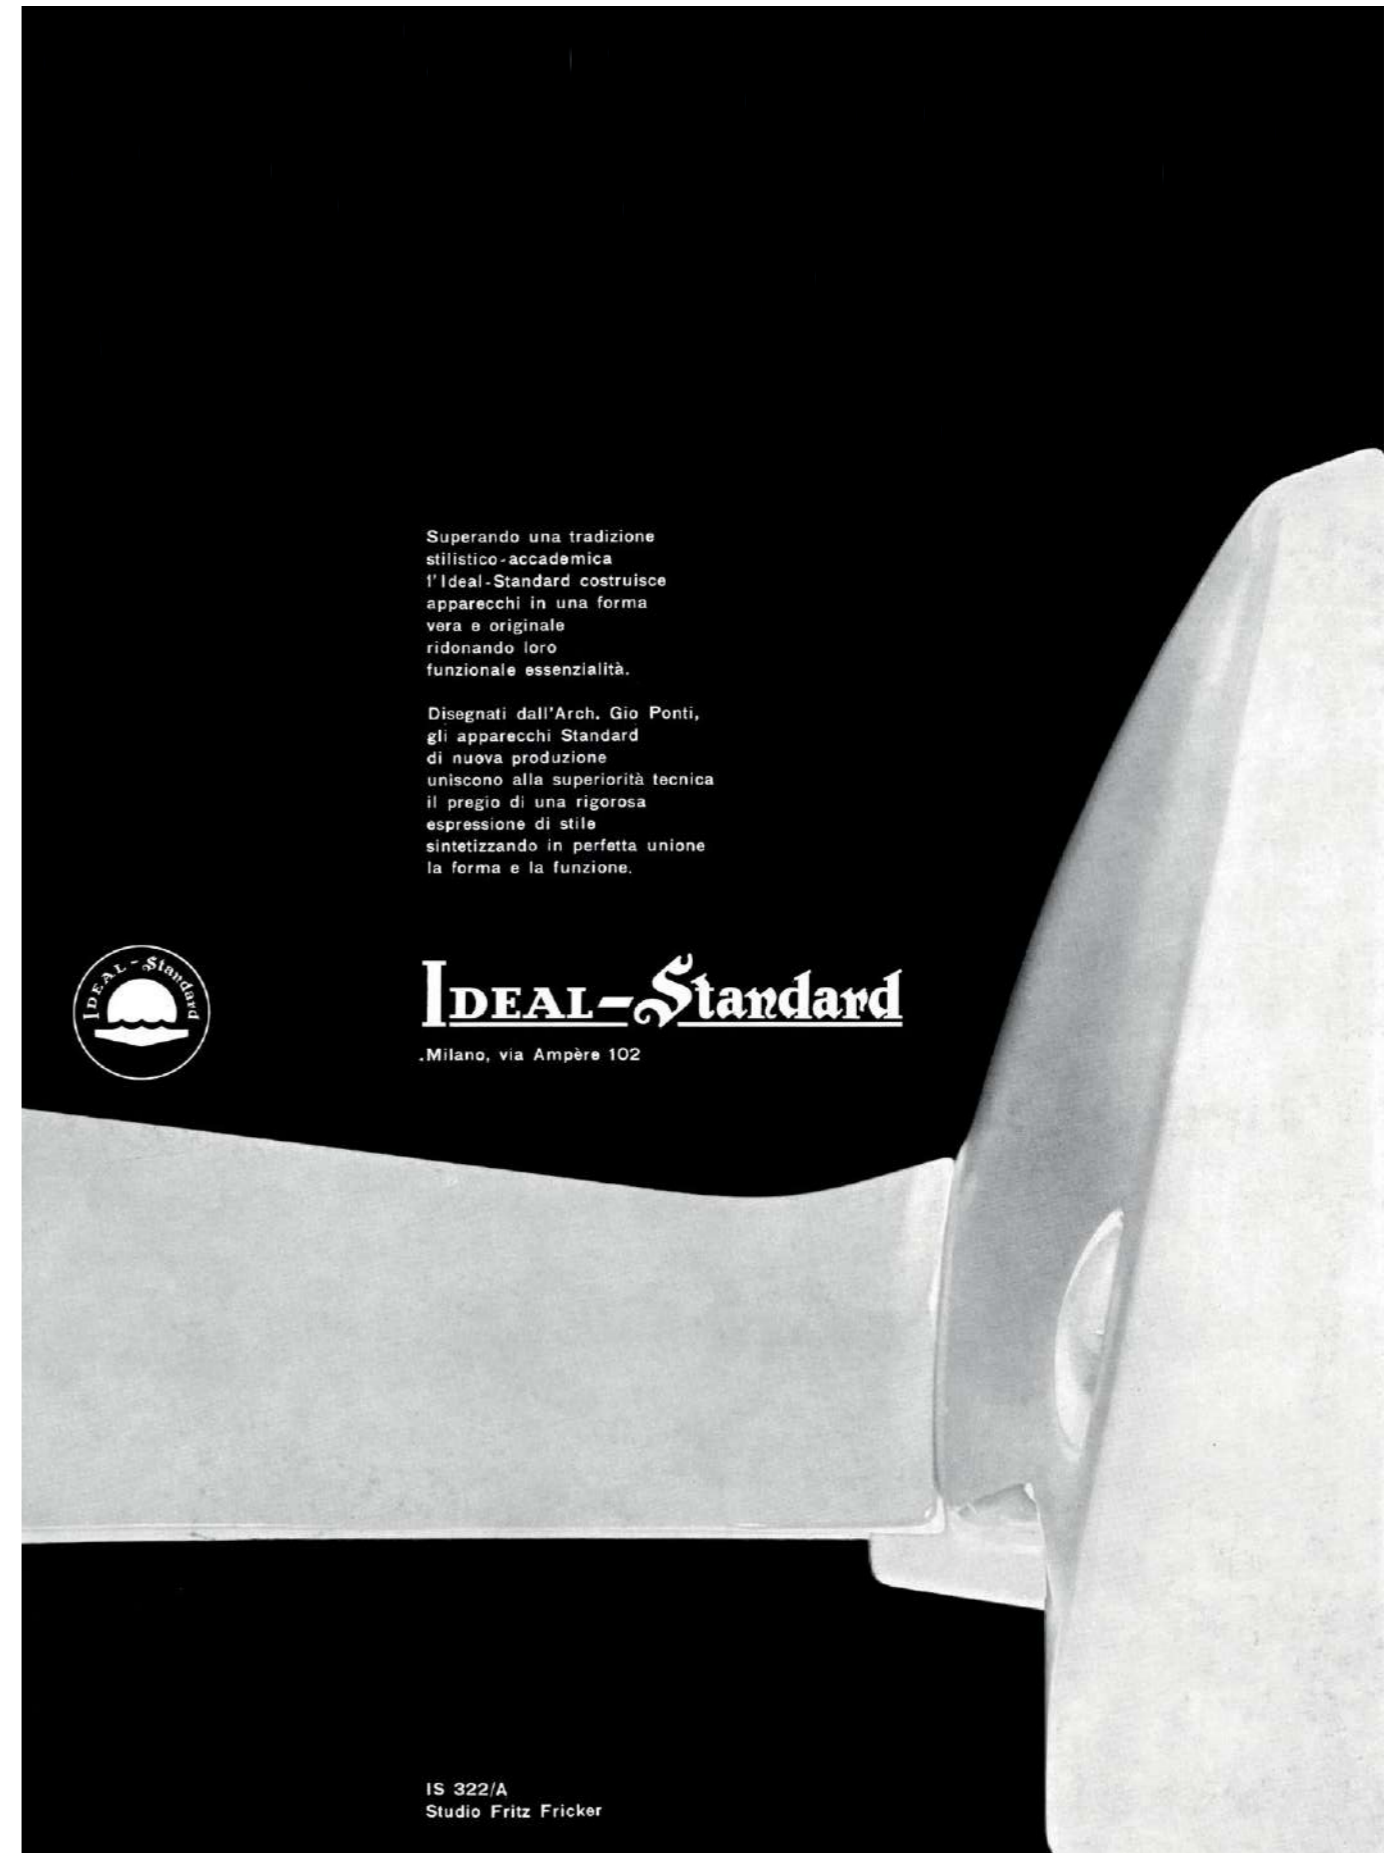

potential to build something totally yours and absolutely unique.

Aimed at fostering the process of creation, the innovation and simple beauty within Atelier support you on both your personal design journey, and the realisation of timeless projects. Wherever you choose to begin, you will find us working at the intersection of technology, creativity and people - empowering you to surround yourself with beauty at every turn.

Above: "A series of small dimensions, but with an essential shape intended for the general public". With these words, the architect and designer Achille Castiglioni presented Linda in 1977.

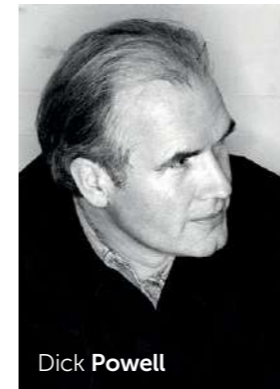

Above: An historical advertising campaign.

An historical advertising campaign. Prestigious Artists and graphic designers such as Fritz Fricker, Pino Tovaglia, Ezio Bonini and Enrico Ciuti used to work for Ideal Standard.

TOGETHER FOR A BETTER FUTURE

As one of the leading manufacturers in the bathroom industry, Ideal Standard has an important role to play when it comes to building a more sustainable future.

We have a strong belief that acting responsibly is fundamental to the long-term success of our business and will benefit not only our partners, customers and employees but also the wider communities in which we operate.

This is a comprehensive commitment that touches every part of our organisation, ensuring we are significantly reducing our impact on the environment, producing products that encourage sustainable living practices, focusing on ethical conduct in business and creating a workplace that is safe and equitable for everyone.

As recognition for our ongoing sustainability efforts Ideal Standard has been awarded with the Silver EcoVadis Medal for 2023, placing us in the top 25% of all companies rated by EcoVadis and the top 15% in our industry.

EcoVadis the world's largest and most trusted provider of business sustainability ratings and their accreditation covers four holistic areas: environment, labour and human rights, ethics and sustainable procurement. This is a great achievement that spurs us on to continue improving good sustainability practices.

We have a strong belief that acting responsibly is fundamental to the long-term success of our business and will benefit not only our partners, customers and employees but also the wider communities in which we operate.

This is a comprehensive commitment that touches every part of our organisation, ensuring we are significantly reducing our impact on the environment, focusing on ethical conduct in business and creating a workplace that is safe and equitable for everyone.

For a better planet

Decarbonise

Committed to actively work towards carbon neutrality.

Circular economy

Use recyclable & sustainably sourced materials wherever feasible.

Innovation

Deliver innovative products that encourage sustainable living.

For better lives

Culture

Foster growth in our employees, encouraging social awareness and engagement.

Equality

Operate a gender and ethnically diverse environment that ensures equality for all.

Safety

Maintain world class safety standards.

For better business

Customers

Safeguard supply chain resilience and customer satisfaction.

Suppliers

Robust governance of supplier commitment to Ideal Standard values.

Transparency

Deliver accurate, transparent and ethical reporting to all stakeholders.

Innovating for a better tomorrow

We strive to be leaders in performance. Whether it's excellence in comfort, safety, hygiene or durability, performance makes everything possible.

To the list can be added sustainability. By combining experience with expertise, we are able to push past limitations into new possibilities, and deliver innovations that help save natural resources, reduce our products' embodied carbon, increase their longevity and promote health.

Discover some of our performance-led innovations that help us in shaping a better tomorrow.

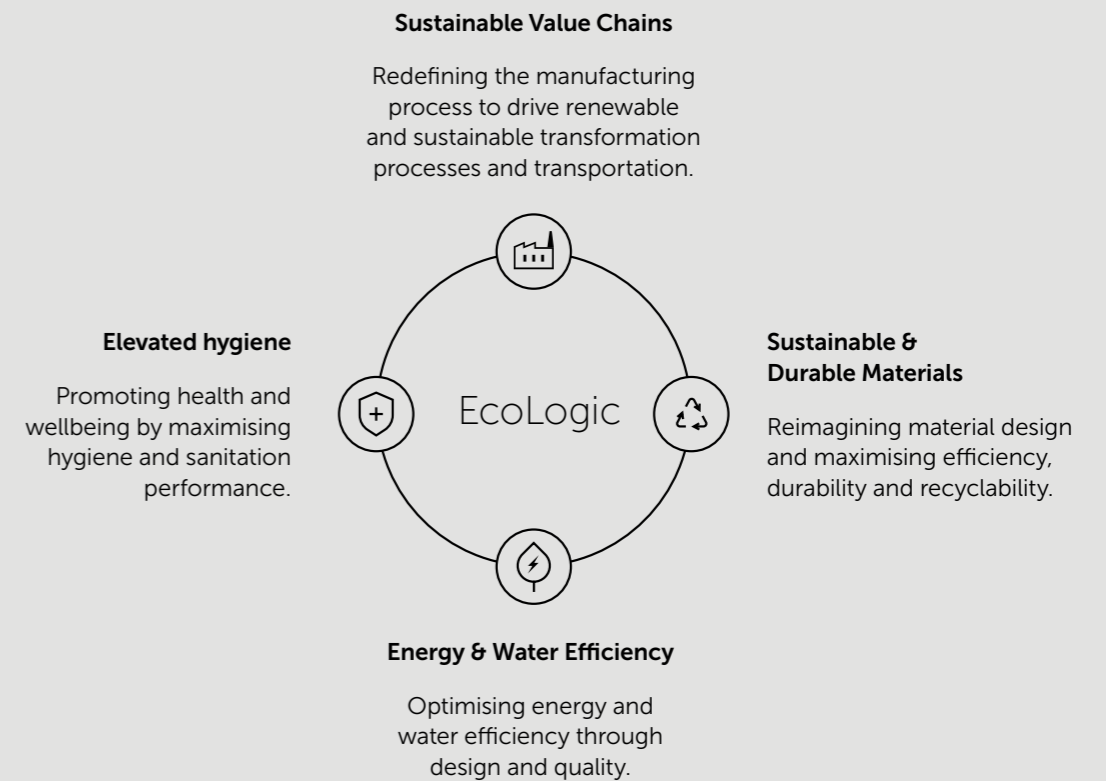

EcoLogic

Making sustainability an easy choice

We want to make it as easy as possible for our customers to make sustainable choices across all bathroom categories. This requires us to rethink our production processes and reduce the ecological impact of our products over their entire lifespan.

That is why we developed EcoLogic – a new approach to product development that focuses on four values, allowing us to integrate sustainability in our manufacturing processes and our finished products.

The four values touch every phase of a product's life-cycle and focus on reducing CO₂ emissions and waste, saving energy, water and other natural resources, promoting hygiene and protecting vulnerable users.

Aquablade®

Engineered for hygiene.

Silent, superior, splash-free flushing, even at low water volumes.

For spaces where hygiene is paramount, and for washrooms where first impressions are essential, AquaBlade® is the ultimate design solution.

Cleaner

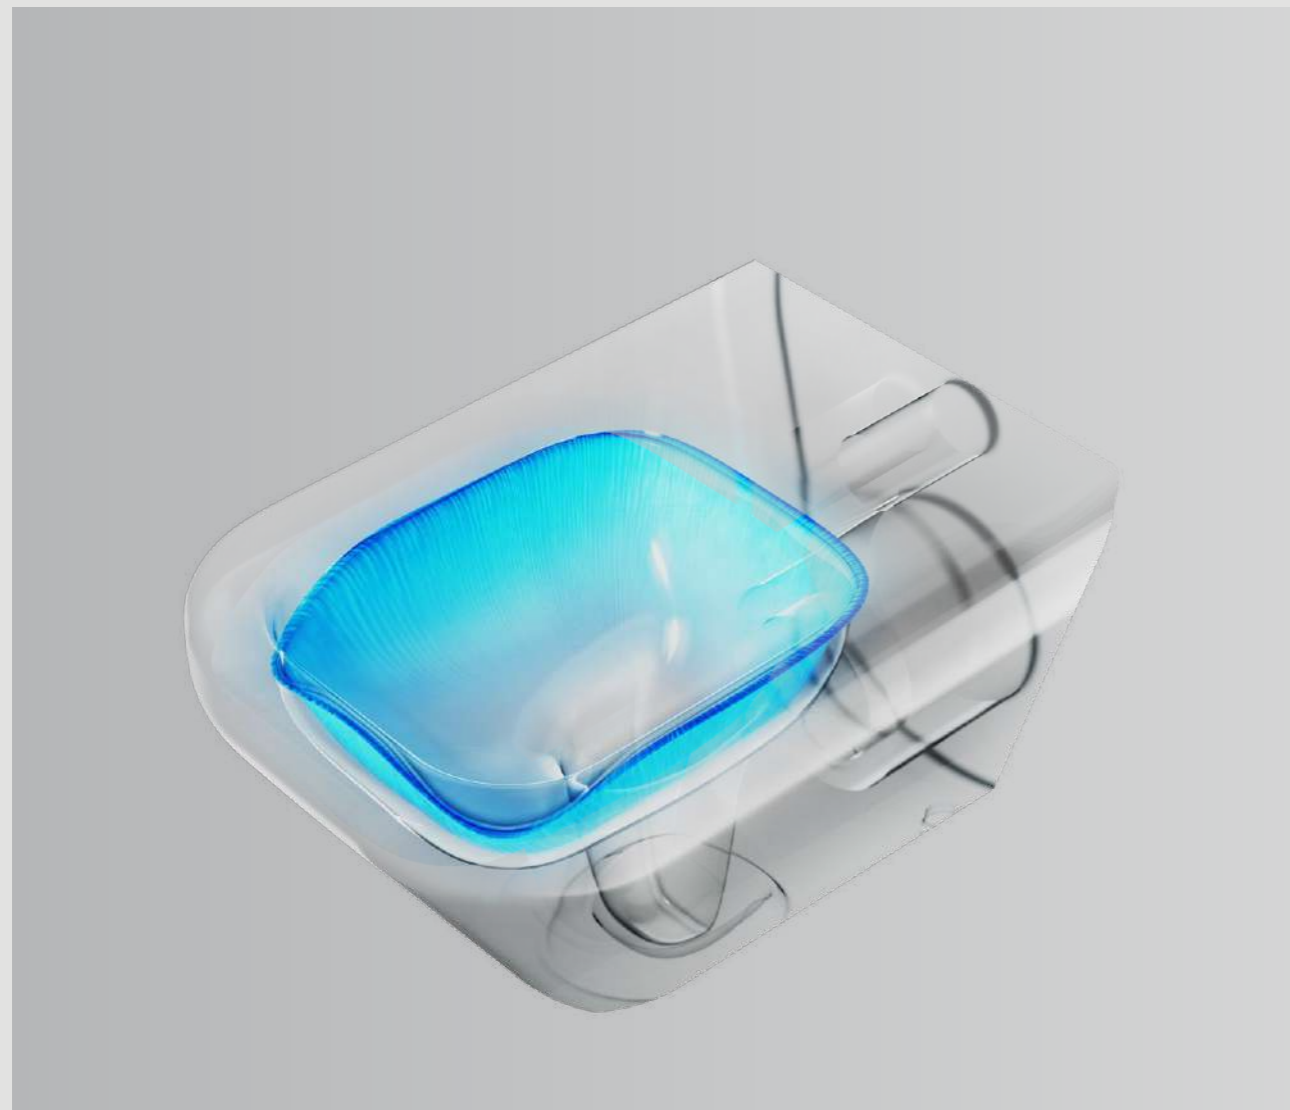

AquaBlade® Technology ensures 95% of the surface is cleaned every time.

Quieter

AquaBlade® is proven to be up to 25% quieter than equivalent models.

SMARTER

More effective and efficient use of water compared to standard flushes.

RimLS+®

Engineered for hygiene.

With every flush, RimLS+® delivers a powerful wholebowl clean with no place for bacteria to hide.

Splash-free and easier to clean, RimLS+ is the go-to solution for busy bathrooms. 88% of households would buy an Ideal Standard Rimless+ toilet. A toilet with excellent hygiene performance.*

*Result of a user survey commissioned by Ideal Standard and conducted by the institutes TCV-/isi-GmbH [n = 1,000 households with residential property – Germany n=500; Italy n=500], based on the outcome of external tests conducted by X-Tech srl for Ideal Standard measuring hygienic parameters of the toilet flush [unwashed toilet area, number of water splashes]. Scientific Supervision of User Survey: Prof. Dr. Andreas Scharf, University of Applied Sciences Nordhause

ProSys®

Engineered for your peace of mind.

The ProSys® installation system provides complete pre-wall solutions for all washroom fixtures: toilets, bidets and basins. With different products for solid and dry wall applications, ProSys® is ideal for a wide variety of projects. The versatile range combines seamlessly with Ideal Standard's range of ceramics and fittings to ensure optimal performance. With end-to-end quality control and exceeding testing standards, the ProSys® system provides complete peace of mind.

FirmaFlow®+

Engineered to last.

Ideal Standard pioneered the ceramic mixer tap disc cartridge in 1969, revolutionising the way people use bathrooms forever and making it possible to create the single lever tap.

Some 50 years on, the evolution of this innovation, FirmaFlow®+, continues to set the standard for ceramic discs through exceptional engineering and extraordinary durability, offering heat resistance up to 90°C. FirmaFlow®+ delivers incredibly smooth operation for 750,000 cycles, ten times the EU norm (EN817) and enough to last a family of four 20 years*.

750.000+

full use cycles, 10x the European norm (EN817)

90°C

heat resistant

20+ years

of daily use for a family of four

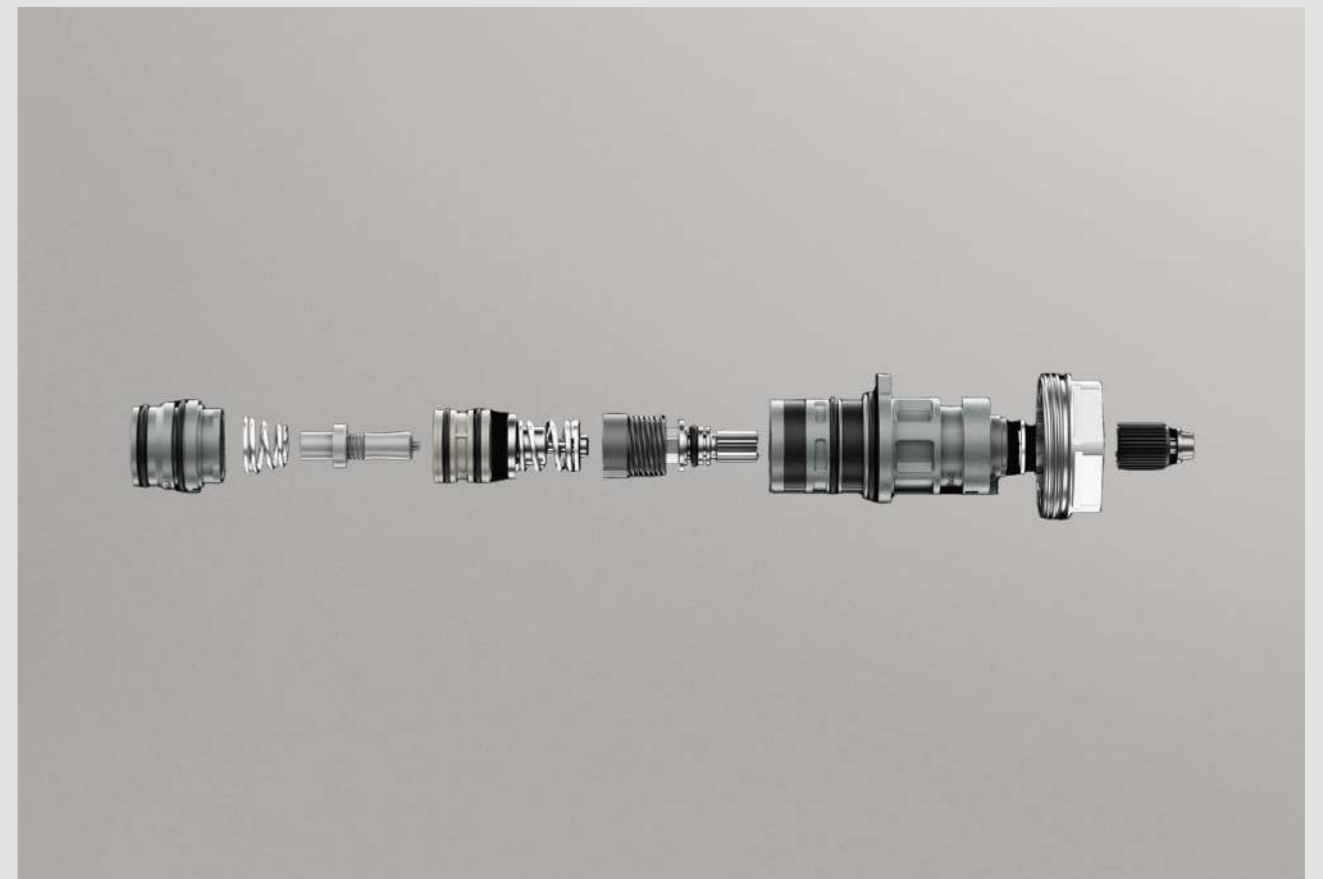

PreciTherm®

Engineered for comfort and safety.

Ensuring the ultimate shower and bath experience, the PreciTherm® thermostatic cartridge offers unrivalled levels of durability, safety and performance. Created to prevent potentially harmful fluctuations in water temperature, Ideal Standard's intelligent engineering prevents sudden surges of hot or cold water from causing discomfort or, at worst, scalding.

Rises or drops of up to 20°C are possible with nonthermostatic mixer valves, when a toilet is flushed or a hot tap is run elsewhere in the building, for example. With PreciTherm®, the maximum fluctuation is 1.5°C for up to two seconds before the temperature rebalances.

*Based on five uses per day per person as well as typical water conditions and use. Test results only apply to our 38mm cartridge.

BlueStart®

**Engineered
for energy savings.**

BlueStart® technology enables significant energy savings as only cold water flows when the tap is used with the lever in the centred position.

With standard taps most people turn on the water in the mid-lever position, resulting in a mix of hot and cold water. But very often warm water isn't needed at all. Cold water is usually sufficient for washing hands, brushing teeth or cleaning. BlueStart® technology avoids this unnecessary warm water use, reduces energy consumption, lowers CO₂ emissions and saves money.

BlueStart® iX

**Engineered for energy
and water savings.**

BlueStart® iX is the technology behind our leading-edge iX tap ranges, which offer a smart two-in-one solution, by combining the energy saving benefits of our BlueStart® technology with the hygiene and water-saving features of a touchless tap.

BlueStart® iX offers significant energy savings as only cold water flows when the touchless function is used which is usually sufficient for brushing teeth, washing hands or cleaning. Additionally, it helps save water as the flow stops automatically as soon as the user removes their hands from the sensor detection area. This also reduces the need for cleaning and avoids the spread of germs by touching the tap with dirty hands.

The BlueStart® iX technology is available in a variety of different designs, colours and sizes, offering a flexible, practical and environmentally friendly solution for modern bathrooms.

DUAL COLOUR
FURNITURE UNITS
WITH HANDLE
FREE FRONTS

This range is extremely versatile and is made with an almost weightless beauty, to elegantly breathe new life into any home.

This stunning collection was created exclusively for Ideal Standard by Robin Levien - the Royal Designer for Industry.

The range takes its inspiration from nature with subtle, feather-like touches that will inspire you and your guests.

Connect Air is the perfect choice for a timeless look. Connect Air Cube offers you thin rims and tapered edges, where Connect Air Arc keeps the beauty but displays it in a softer form. There are four basin options, including pedestal, vanity, vessel and semi-countertop, which can be combined with the furniture and matching toilets for a complete bathroom solution.

WEIGHTLESS
— BEAUTY

The choice of Connect Air furniture is extensive and designed to suit a range of spaces. A choice of dual colour furniture units add a modern twist, and an open module solution offers a quick and easy access to towels and toiletries. With handle free fronts, it's ideal for modern bathrooms.

CONNECT AIR & CONCEPT BATHS

Ideal for relaxation, this collection has an extensive choice of baths.

As well as the Connect Air freestanding and shower baths you can also choose from the matching Concept and Concept Space collections as they have the same design style as Connect Air.

The Concept Space spacemaker bath is great for those who are short on space and complements Connect Air ceramics perfectly.

TOILETS WITH BENEFITS

Choose from Cube or Arc with close coupled, close coupled back to wall, wall mounted and back to wall options.

All Connect Air toilets feature Aquablade® flush technology for delivering a cleaner, more efficient and quieter bathroom experience. There are two seat options, both with a soft close option and hidden fixings for a cleaner look.

FINESSE

An epitome of modern refinement.

Introducing the latest Finesse furniture range – characterised by a contemporary design, subtle recessed handles, and an exquisite colour palette, including the chic Matt Ashblue. The collection offers versatility with models featuring open side storage, available in three depths to cater to diverse needs. Sustainability was a crucial consideration during development, which is why the entire range is crafted from Chain of Custody-certified wood sourced from sustainably managed forests.

TESI

Supremely functional form exhibiting exquisite beauty.

Slender, elegant and agile: it's precisely adapted to suit environmental and lifestyle needs. It performs effortlessly in every role and never fails to achieve perfect balance.

Tesi's soft geometric lines, along with our innovative AquaBlade® flush technology, turns a bathroom into a modern and enjoyable space.

- TESI Vanity basin 80 cm
- TESI Basin mixer
- TESI Wall hung toilet & seat
- SYMFO Flushplate

Four different sizes of vanity and pedestal basins, plus a semi-countertop option.

TESI BATHS

Beautifully simplistic

With their flat, linear edges and bold, semicircular back rest. Tesi baths have a pure geometric form that will sit harmoniously within so many of today's bathrooms.

TOILETS WITH BENEFITS

With hygiene in mind, Tesi toilets also feature AquaBlade® technology for cleaner, quieter flushing.

Hidden fixings on the wall hung bowl and bidet give you a clean look. The toilet seats have a soft close option with a quick release take off mechanism for easy cleaning.

TESI

Modern
by nature.

The pure and simple design of Tesi makes it perfect for most bathrooms, of any size. Modern by nature, Tesi's taps and mixers are built to accommodate family bathrooms or a stylish, contemporary, smaller en suite or cloakroom, fitting in perfectly to your home. Form meets function with clever, single lever and dual-control bath and shower fillers and mixers and a range of basin and bidet mixers, you're sure to find something to suit your space.

**EASY TO INSTALL AND
DELIVERING PRECISE
TEMPERATURE CONTROL.**

Whether it's a tall, mini, standard or built-in basin mixer or a shower/bath mixer Tesi is at the forefront of innovation. Each one is fitted with the FirmaFlow® 28mm ceramic disc cartridge to control both the flow and temperature of your water with perfect precision. There is even a mini basin mixer to match the proportions of a cloakroom-sized basin and make the most of your space.

CERATHERM T

The ultimate
experience.

Ceratherm T includes a range of
different options to inspire your
shower installation.

Make your bathroom the focal
point of your home and make
every day an incredible experience
by combining with our diverter

shower mixers or Easymount rails
and enhance with our Idealrain
Evo and Evo Jet handsprays.

Whether you're overhauling an
old space or creating a brand new
one, you can do it all with our
Ceratherm family.

CERATHERM T50 Bath shower mixer
CONCEPT Rectangular bath

Choosing your shower solution from the Ceratherm family gives you a range of incredible benefits. Easily installed in almost any location it has a streamlined design, common connections and adjustable fittings.

Shower System

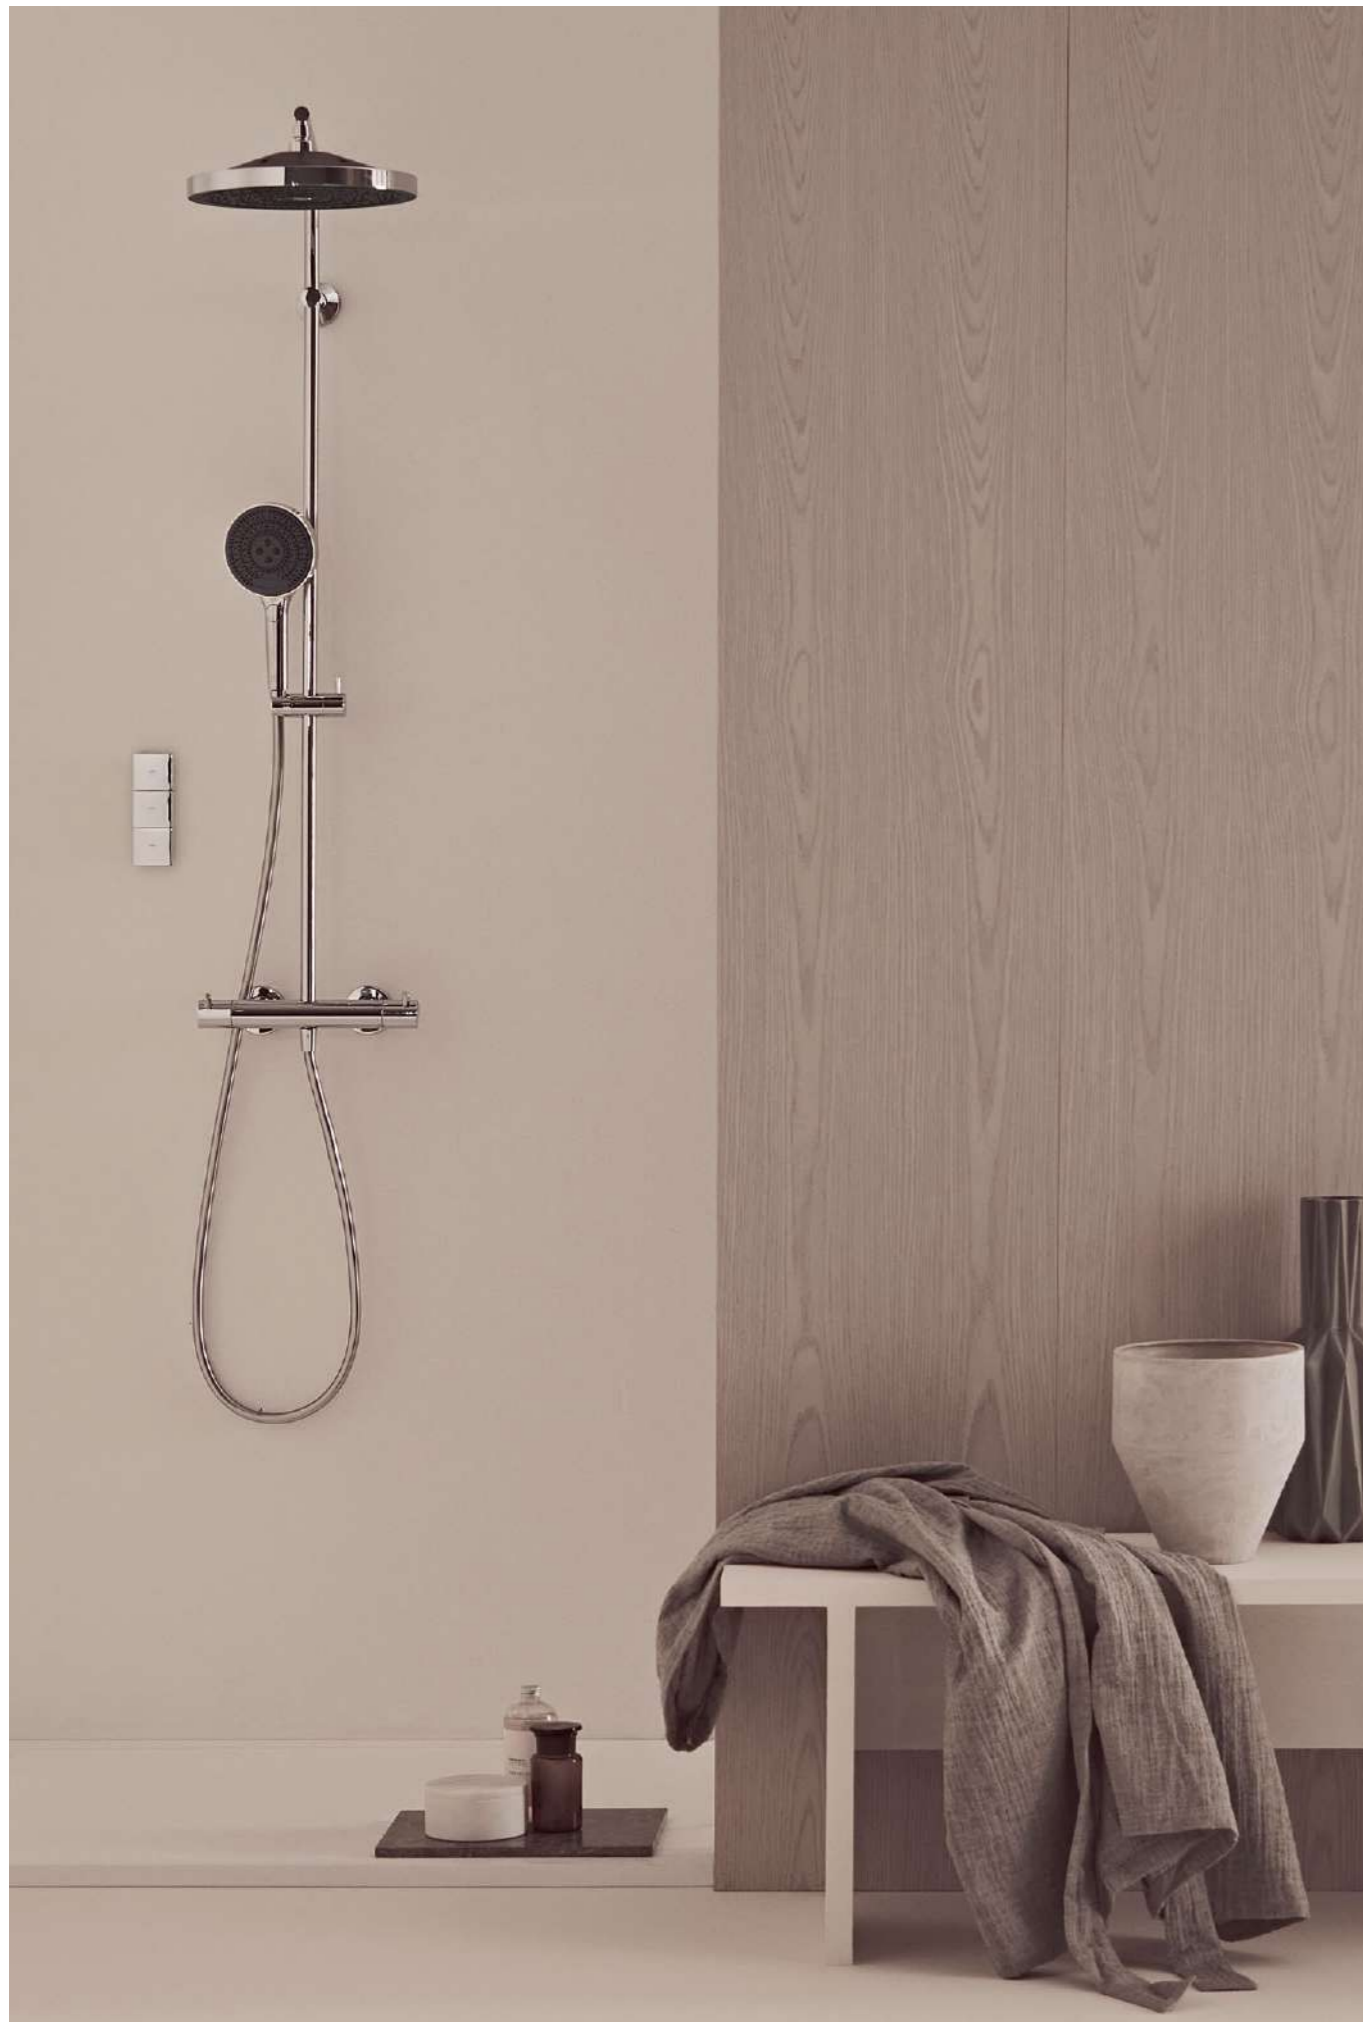

CERATHERM T125

Design and functionality
in one.

This is minimalistic cylindrical design created with simplicity and elegance. Ceratherm T125 features a two in one pin handle with easy grip and integrated ceramic diverter to select handshower or rainshower, all housed within a leaner, more compact body.

EasyFix rails make for simple installation and ease of use, while CoolBody technology ensures a safer shower by keeping the external surface cool to the touch. On the inside, these showers feature Ideal Standard's PreciTherm® cartridge for accurate temperature control that makes every drop of water count.

CERATHERM S200

Designed to shape
shower space.

Ceratherm S200 brings together outstanding performance with practicality that makes the most of your shower space without compromising on aesthetics. The exposed thermostatic mixer features an integrated shelf of safety glass for a clean look, which adds valuable storage space in your bathroom.

Easy to control, thanks to knobs positioned on the front, Ceratherm S200 features Ideal Standard's PreciTherm® thermostatic cartridge, which prevents sudden fluctuations in hot or cold water. The range is available in Chrome and Silk Black finishes as a shower system with fixed rainshower and handspray and also as a hand shower and rail combination.

Ceratherm C100
Shower System

CERATHERM C100

A statement
cube design.

A minimalist aesthetic with bold geometric design, flat surfaces and extra large heads, these are high-end showers that become a statement piece in your bathroom. Ceratherm C100 performs beautifully too, with safety and eco buttons on the handle which are flush to the surface for consistent design but which are still easy to push.

CERATHERM NAVIGO®

Engineered
for control.

Navigo technology let's you control your showering experience with one smooth push of a button. The sleek innovative system provides ultimate control over water flow and temperature, making every single shower a perfect one.

To ensure flawless performance and an effortless installation, they have been combined with Ideal Standard's built-in installation technology - Easy-Box. First launched 10 years ago, Easy-Box is installed in about 800,000 bathrooms.

NAVIGO® ALLOWS YOU TO OPERATE YOUR SHOWER WITH ONE SIMPLE PUSH-AND-TURN MOVEMENT:

PUSHING THE CONTROL KNOB STARTS OR STOPS THE SHOWER. TURNING THE DIAL ALLOWS FOR PRECISE CONTROL OF WATER FLOW.

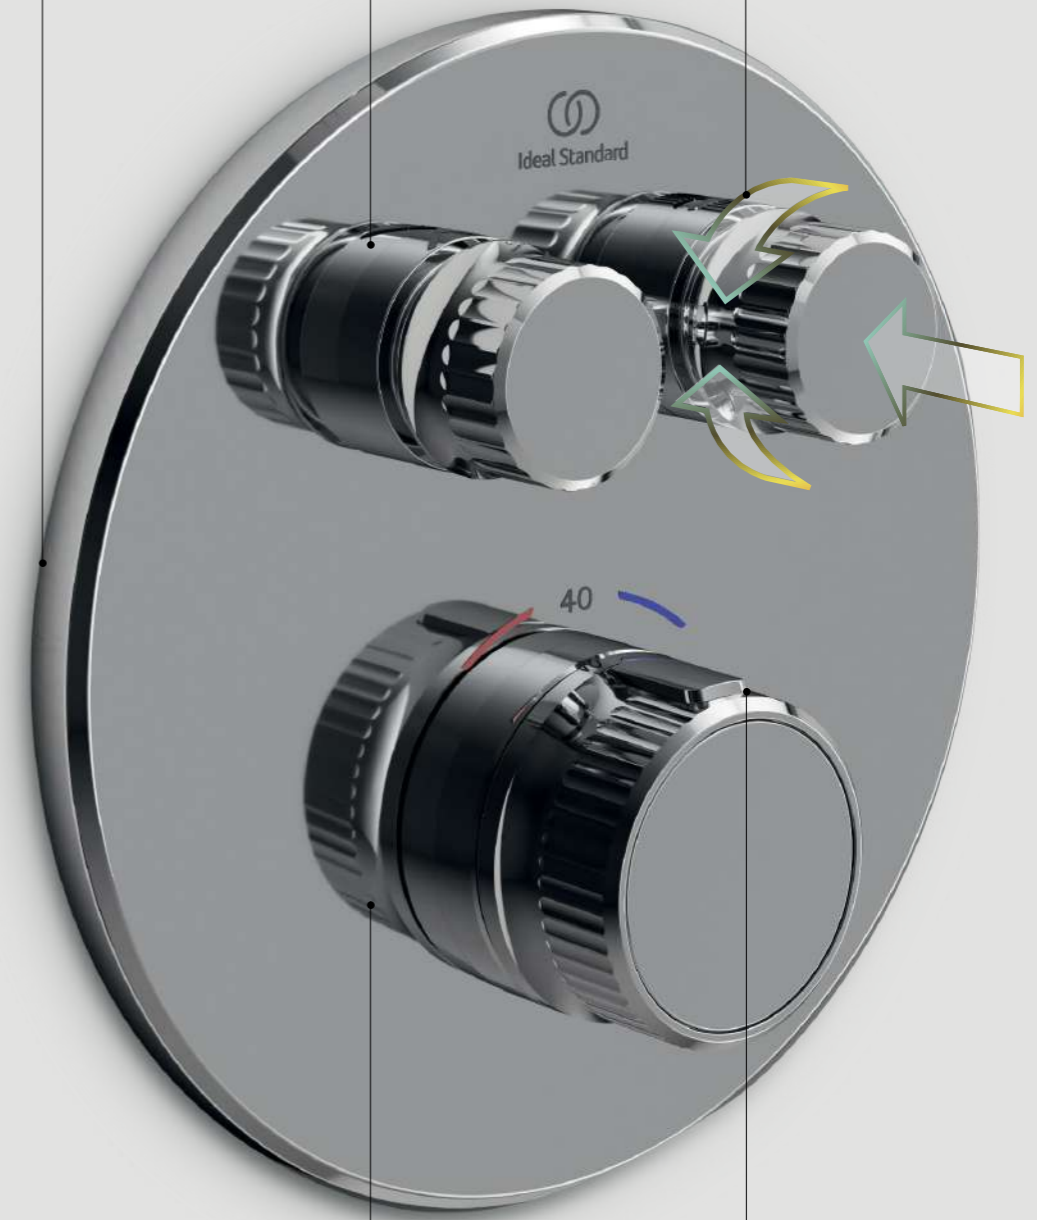

- Experience hand-spray and overhead rain-shower simultaneously.
- Slim faceplate made of metal for long-term durability.
- Ergonomically designed metal handles featuring easy-grip grooves.
- FirmaFlow® Therm thermostatic cartridge offering precise temperature control.

Slim and sleek design: 10mm only.

Discreet shower option symbols on top of the control knobs for an intuitive operation.

One smooth push-and-turn movement to control the water flow at your preselected temperature.

Precise and consistent temperature settings.

40°C safety button to prevent scalding.

SHOULDERS

IDEALRAIN EVO & EVO JET

Two high performance models to enhance your showering experience.

EVO ROUND

EVO JET DIAMOND

IDEALRAIN EVO

The Idealrain range effortlessly complements our thermostatic diverter mixer shower systems. Evo has an aerated spray mode. Using the Navigo® push button located on the handspray, switching between modes couldn't be easier.

Idealrain performs brilliantly and deliver design choices suitable for any bathroom.

RAIN

Creates a relaxing downpour thanks to nozzles that extend up to the spray plate edge.

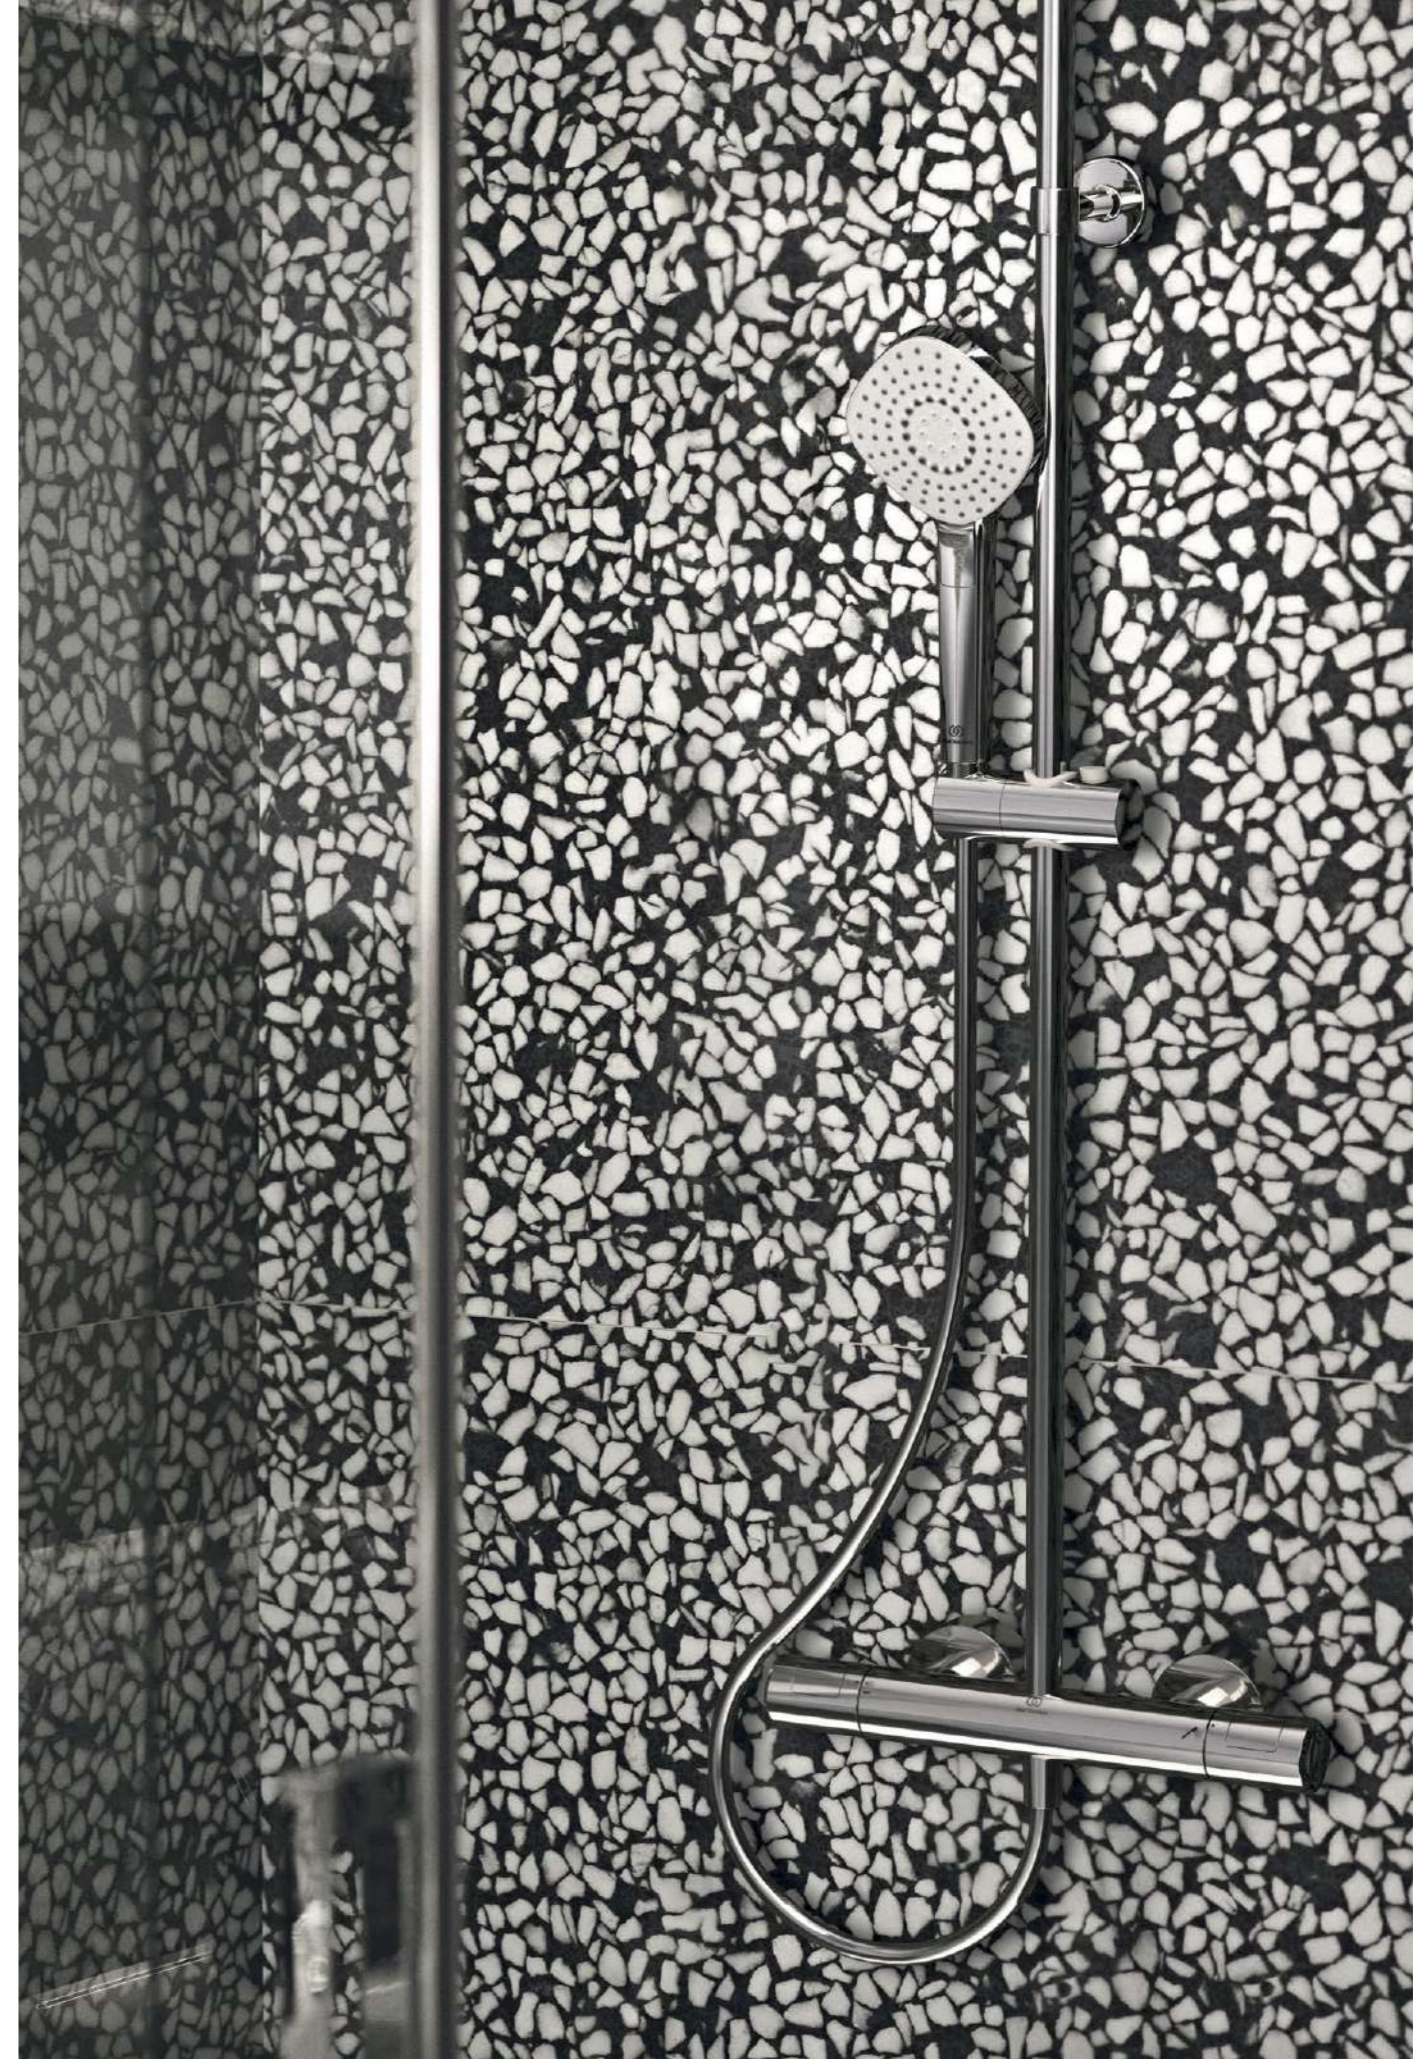

AERATED

A spray that sucks air into the water for a gentler, cleansing experience.

MASSAGE

The massage spray mode delivers a truly invigorating experience

IDEALRAIN EVO JET

From invigorating
to relaxing

Evo Jet features Drop Jet, A unique pattern
from Ideal Standard, creating larger, softer
droplets for added luxury.

RAIN

Creates a relaxing downpour thanks to
nozzles that extend up to the spray plate edge.

DROP JET

Drop Jet technology creates unique large and soft
water droplets for a luxurious de-stressing experience.

MASSAGE

The massage spray mode delivers
a truly invigorating experience

Singular™
from Ideal Standard

CONNECT 2

Designed for
everyday living.

We understand what it takes to make the perfect shower environment. The main considerations for planning are access, space and position. From ingenious door mechanisms that work in the smallest ensuite to spacious enclosures for family bathrooms, our Connect 2 range has a solution for every conceivable scenario.

Expert engineering means our shower enclosures and bath screens are full of clever features which make them not just a pleasure to use but easy to install, clean and maintain.

WHICH SHOWER ENCLOSURE?

Ideal Standard understand what it takes to make the perfect shower environment. The main considerations for planning are access, space and position. From ingenious door mechanisms that work in the smallest ensuite to spacious enclosures for family bathrooms, we have a solution for every conceivable scenario.

Expert engineering means our Connect 2 shower enclosures and bath screens are full of clever features which make them not just a pleasure to use but easy to install, clean and maintain.

CONCEALED FIXINGS

→ The cover caps of Connect 2 click easily into place during installation and combine with top caps to conceal all fixings.

SMOOTH RUNNING WHEELS

→ Quality components ensure doors glide along effortlessly and silently.

HORIZONTAL ADJUSTMENT

→ Allows perfect fitting to out-of-true walls.

POWER SHOWER PROOF

→ Enclosures have been tested to ensure that even with the most invigorating of showers the seals remain watertight.

GUARANTEE

→ Enclosures, wetroom panels and baths screens have a 10 year guarantee

GLASS THICKNESS

→ 6mm toughened safety glass.

IDEALCLEAN

→ Reduces cleaning time by up to 90%. A special coating makes glass easier to clean and it stays cleaner for longer.

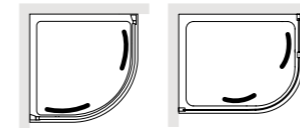

CLICK & CLEAN

→ Lower wheels and panels can be released for cleaning. The panel clicks back into position for a watertight seal.

Corner Installations

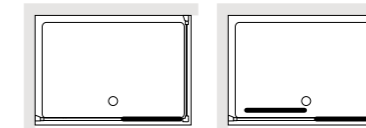

Quadrant/Offset Quadrant

These curved enclosures suit almost any bathroom design, creating an open environment, even in restricted spaces.

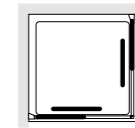

Sliding Door with Side Panel

Sliding doors offer maximum access where there is limited space to open a door. They can also work well in larger spaces to create luxurious showering areas.

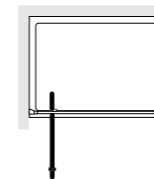

Corner Entry

When space is limited on either side of a shower enclosure a corner entry with sliding doors offers an effective solution.

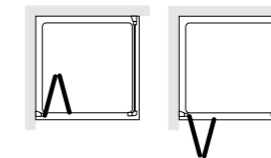

Pivot Door with Side Panel

These doors swing open to offer wide access, which when combined with a side panel creates a light and airy showering area.

Infold/Bifold Door with Side Panel

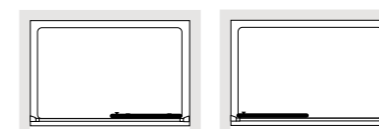

When there isn't room to open a door an infold door is a good solution. It offers wide access in tight spaces.

Alcove Installations

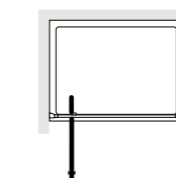

Sliding Door

Sliding doors are a practical solution for alcoves, especially larger spaces. The door glides on smooth running wheels for access.

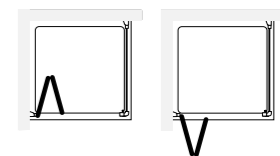

Pivot Door

These doors work well in alcoves allowing the maximum showering area combined with the maximum access.

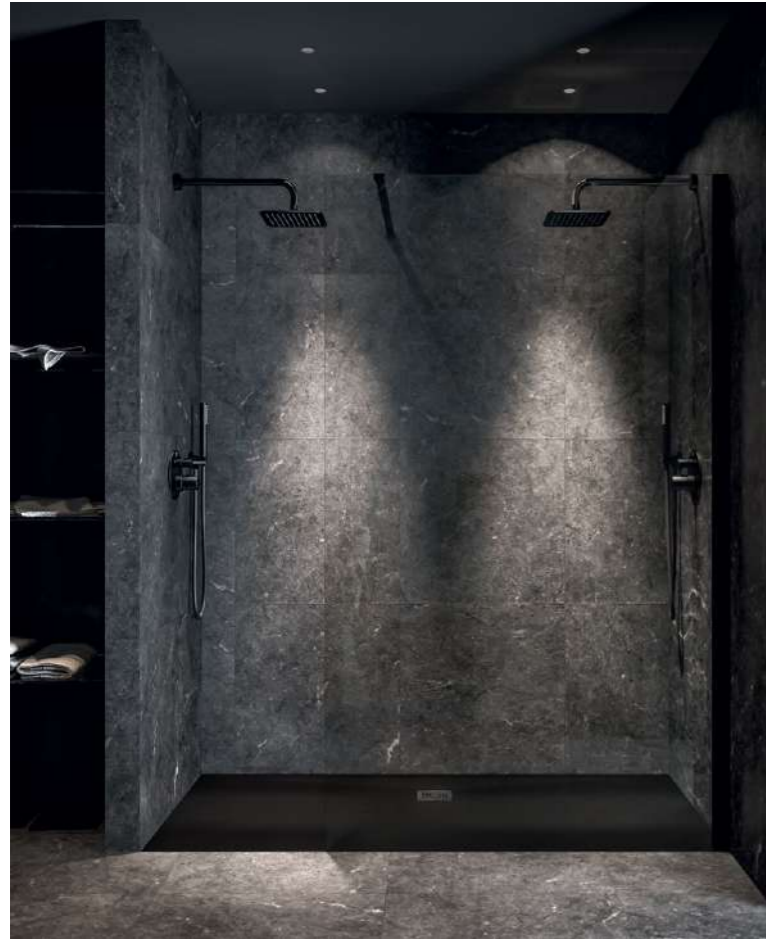

Infold/Bifold Door

The infold/bifold door is a great option for smaller spaces. It folds inwards to provide full access.

WET ROOM PANELS

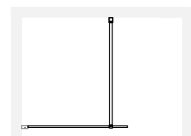

For a walk-in showering space, choose Connect 2 Silk Black wetroom panels.

A single front panel with bracing bar can be used independently or with an additional side panel. Brackets and panels are ordered separately for flexibility of choice and configuration options.

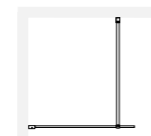

Alcove Installations

Wet Room Panel

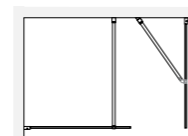

Corner Installations

Wet Room Panel

Wet Room Panel with End Panel

Wetroom panels give that extra level of minimal contemporary elegance. Like all of our enclosures they too are suitable for installation on a tray or wetroom floor.

CONCEALED FIXINGS

→ The cover caps of Connect 2 click easily into place during installation and combine with top caps to conceal all fixings.

HORIZONTAL ADJUSTMENT

→ Allows perfect fitting to out-of-true walls.

GUARANTEE

→ Enclosures, wetroom panels and baths screens have a 10 year guarantee

GLASS THICKNESS

→ 8mm toughened safety glass.

IDEALCLEAN

→ Reduces cleaning time by up to 90%. A special coating makes glass easier to clean and it stays cleaner for longer.

* We do not recommend using 6mm wetroom panels as a dual entry installation. They must always be tied into the wall channel into supporting wall

UltraFlat S+
Shower tray

ULTRAFLAT S+

A touch of class.

The collection's ultra-flat, rimless design fits harmoniously in every bathroom, creating a unique and luxurious look. UltraFlat S+ is the perfect choice for adding a touch of elegance and sophistication to your space.

At just 30mm high, UltraFlat S+ shower trays combine contemporary style with practical functionality. These stone resin trays, complete with a robust gel coat finish, offer a textured stone surface with essential anti-slip properties, achieving a Class C anti-slip rating EN16165.

SHAPES & FINISHES

Available in four stylish matt stone finishes, the range includes 27 sizes in both square and rectangular shapes. UltraFlat S+ trays can be installed on the floor or flush with the floor, providing a seamless, luxurious level access installation. For added flexibility, they can also be 'installer cut' on site if required.

Each tray has a colour-matched waste cover, along with Chrome and Stainless Steel (as standard), ensuring every detail contributes to a cohesive bathroom.

SIMPLICITY SHOWER TRAYS

Simplicity shower trays complement our enclosures. These slim, low profile trays are strong and durable with a clean contemporary design which makes them suitable for a wide range of installations.

- 40mm height excluding upstand
- Made from lightweight stone resin
- Acrylic capped abs offers strength and stability with a smooth, scratch-resistant gloss surface
- Floor standing or riser installation
- Slim, low profile trays with a choice of upstand solutions for leak-free installation
- Supplied with a 90mm fast-flow chrome waste
- 25 year guarantee

UPSTANDS

Upstand trays feature a water retaining lip around the edge that is tiled into the wall to minimise water leaks (see left).

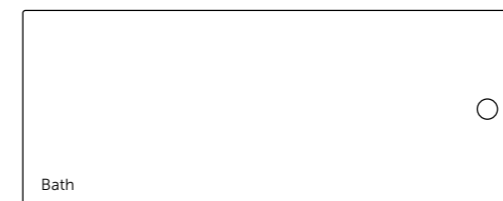

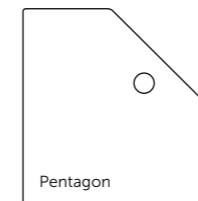

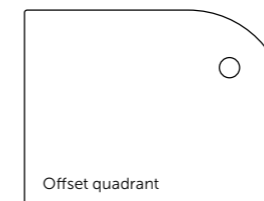

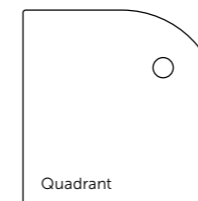

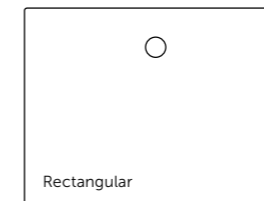

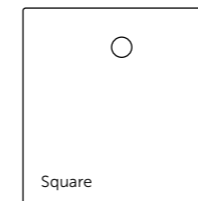

The shower is installed against the finished wall with plaster board on top of the upstand. The tray is then tiled into the wall by tiling over the upstand onto the tray.

Where an upstand is not required around the whole tray a roll of flexible adhesive upstand is available to purchase which can be cut to size as required.

SHOWER TRAY SHAPES

There is a wide range of shapes and sizes available for every type of installation.

GUARANTEE

Ideal Standard have been producing bathrooms for more than 100 years. Intensive and continuous testing is the key to class-leading durability. Designed to endure the impact of daily use all of our products are guaranteed to perform stylishly and reliably, year after year.

Our confidence in the quality and reliability of Ideal Standard products enables us to guarantee many of them for a lifetime. Our guarantee is offered on all products that have been used in the manner for which they were intended and does not apply to any products that have been misused or abused in any way. Products must be installed and cared for in line with our fixing instructions and local water by-laws. In the unlikely event the product fails within the guarantee period, we offer a free replacement or replacement part (or nearest equivalent). Liability is limited to individual products and does not cover consequential loss or damage on installation.

For full conditions, please refer to our website: www.idealspec.co.uk/support/guarantee.html

1. All ceramic products are guaranteed for a lifetime.
2. Acrylic capped shower trays, Idealform and Idealform Plus+ acrylic baths are guaranteed for 25 years from date of purchase.
3. Showers, bath panels, furniture, IDEAL SOLID® shower trays, mixers and taps, WC seats and cistern fittings are guaranteed for 5 years from date of purchase. (Cistern and shower door seals are not included. Replacements can be found on our Fastpart website: www.fastpart-spares.co.uk.)
4. Shower enclosures and bath screens are guaranteed for 10 years.
5. Parts (including push-button flush valves) are guaranteed for 5 years and will be replaced if found to be faulty.
6. Cistern diaphragms, seals and shower seals are not included. Replacements may be purchased through our parts supply service.
7. The guarantee is transferable and applies to the product not the purchaser, provided guarantee registration details are passed on to the new owner.

Ideal Standard pursue a policy of continuing improvement in design and performance of our products. The right is therefore reserved to vary specifications without notice. While great care has been taken to ensure accuracy of all prices, product codes, descriptions and dimensions, Ideal Standard reserves the right to correct errors or misprints. Colour reproduction is as accurate as possible within the limitations of the printing process.
