# Basin Benefits

Elegant Design And Unparalleled Durability

## Perfectly fitting

- ✔ Curved corners for a soft look and feel, a generous wash space, and perimeter rim to keep water in the basin, **Cameo basins are the perfect choice for a family bathroom.**
- ✔ Choose from a classic gloss white ceramic, a contemporary mineral cast matt white finish or a colour matched basin for a colour block aesthetic.

## Glossy ceramics

- ✔ **Ceramic basins** available in gloss white for a more conventional basin option.
- ✔ Ceramic basins can be fitted without an overflow cover for a minimalist look, or a **brass ring overflow, colour matched to your taps** for complete unity.

## Tactile mineral

- ✔ Beautifully designed, minimalist countertop basins add an element of luxury to your bathroom.
- ✔ Available in round or soft square, and one of our four statement finishes.
- ✔ Mineral cast basins are an **eco-friendly** alternative to ceramic as they use less energy in production; all energy used in production is 100% renewable.
- ✔ **Gelcoat surface is easily repairable**, using one of our home repair kits, even deep scratches.

Mineral cast products are made from a mixture of dolomite stone and resin, and have a durable gelcoat applied to the surface to create a high-quality finish.

Worktops designed in perfect harmony with our furniture units and countertop basins and are available in four colours.

## Brass construction

- ✔ Just as chocolate bars are getting smaller, taps are becoming cheaper and lesser quality. Often made with plastic internals and poor-quality components which impact the quality of your water and tap longevity. **At VADO we don't cut corners**, our taps are still all brass construction only using industry-leading componentry; to build products that look good and stand the test of time.

## Low pressure perfection

- ✔ Low pressure operation for superior flow even at 0.2mm bar – perfect for low water pressure households who don't want to compromise on style.
- ✔ Exclusive **VADO** tap cartridge allows for superior sleek, minimalist profile, whilst delivering exceptional water flow for ease of handwashing.
- ✔ Optimised cartridges for water delivery and robust daily use.

## Four contemporary finishes

- ✔ **Chrome, matt black, matt white and satin brass.**
- ✔ Soft linear knurled details feature across the leverless range, tactile to the touch and a soft easy grip control.
- ✔ Levered handles for ease of use.
- ✔ **Full brass tap body**, no plastic parts unlike some competitors products.

Subtle linear knurled detailing on all leverless handles for ease-of-use.

At **VADO** we love styling bathrooms for modern day living.

**Cameo** is no exception, the versatile nature of the collection has allowed our creativity to flow. See how we've styled it over the next few pages.

Why not adopt the fifth wall trend into your home? Painting your ceiling a colour rather than white to add depth, character, and a unique touch to a room.

We have styled this bathroom using marble effect wall panels from Multipanel, to achieve a luxurious look but without the price tag.

**Create a spa-like atmosphere that makes you feel like you're on a getaway every time you step into your bathroom.**

Bathing spaces of this nature are all about luxury and functionality, think sleek fixtures, plush towels, and a rainfall showerhead for that extra touch of indulgence.

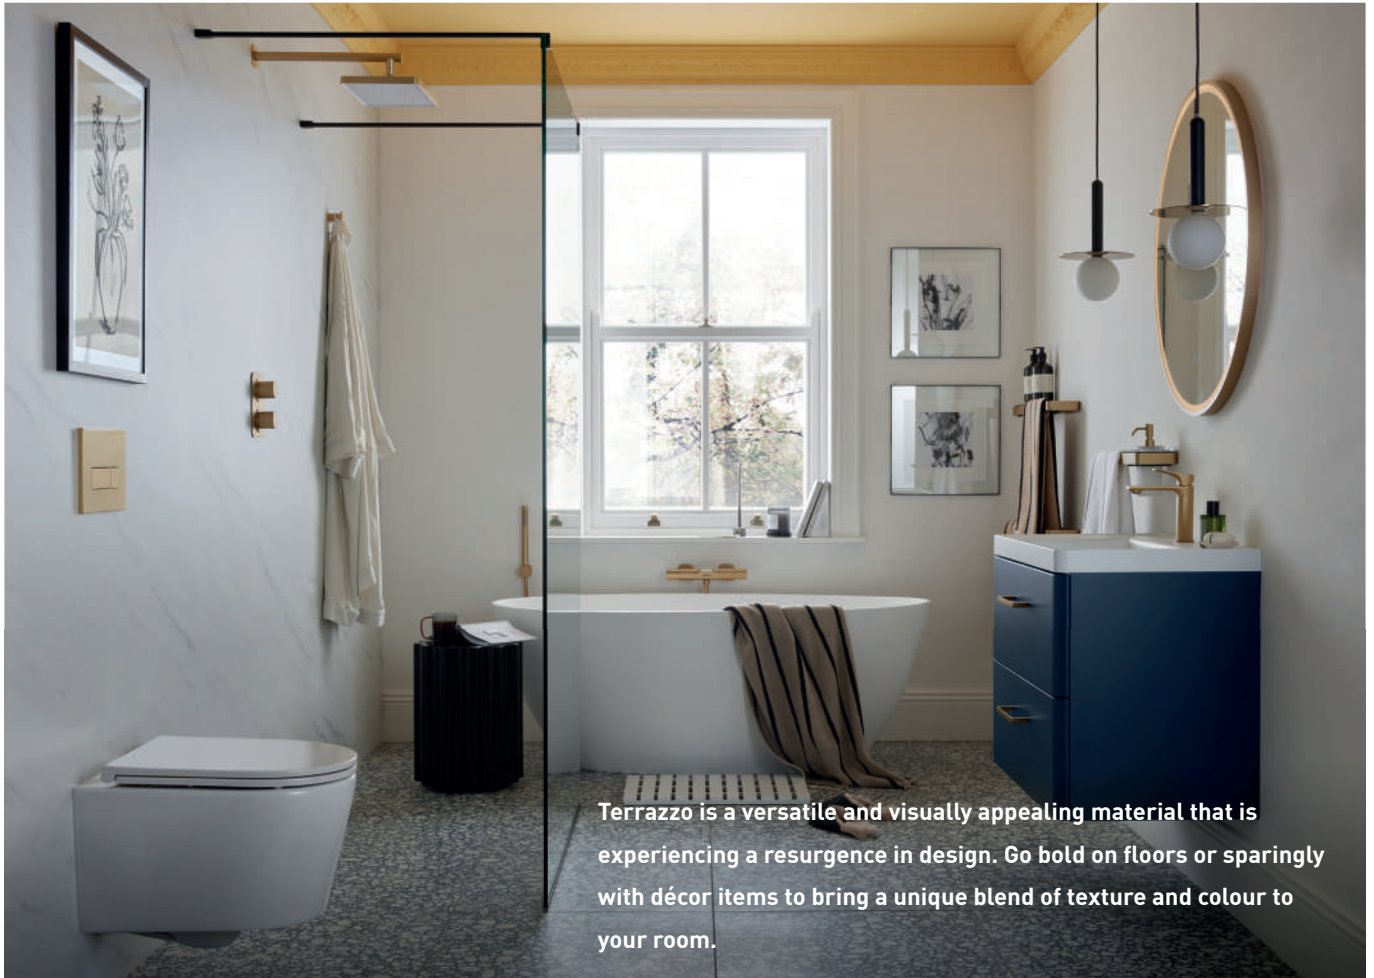

Choose subtle hues to create a serene atmosphere or go bold like we have for a dramatic impact to make the entire space more visually engaging.

Gold and blue create a sophisticated and timeless bathroom aesthetic, their powerful combination bring a touch of opulence and tranquility to a space.

# Luxurious home bathing experiences.

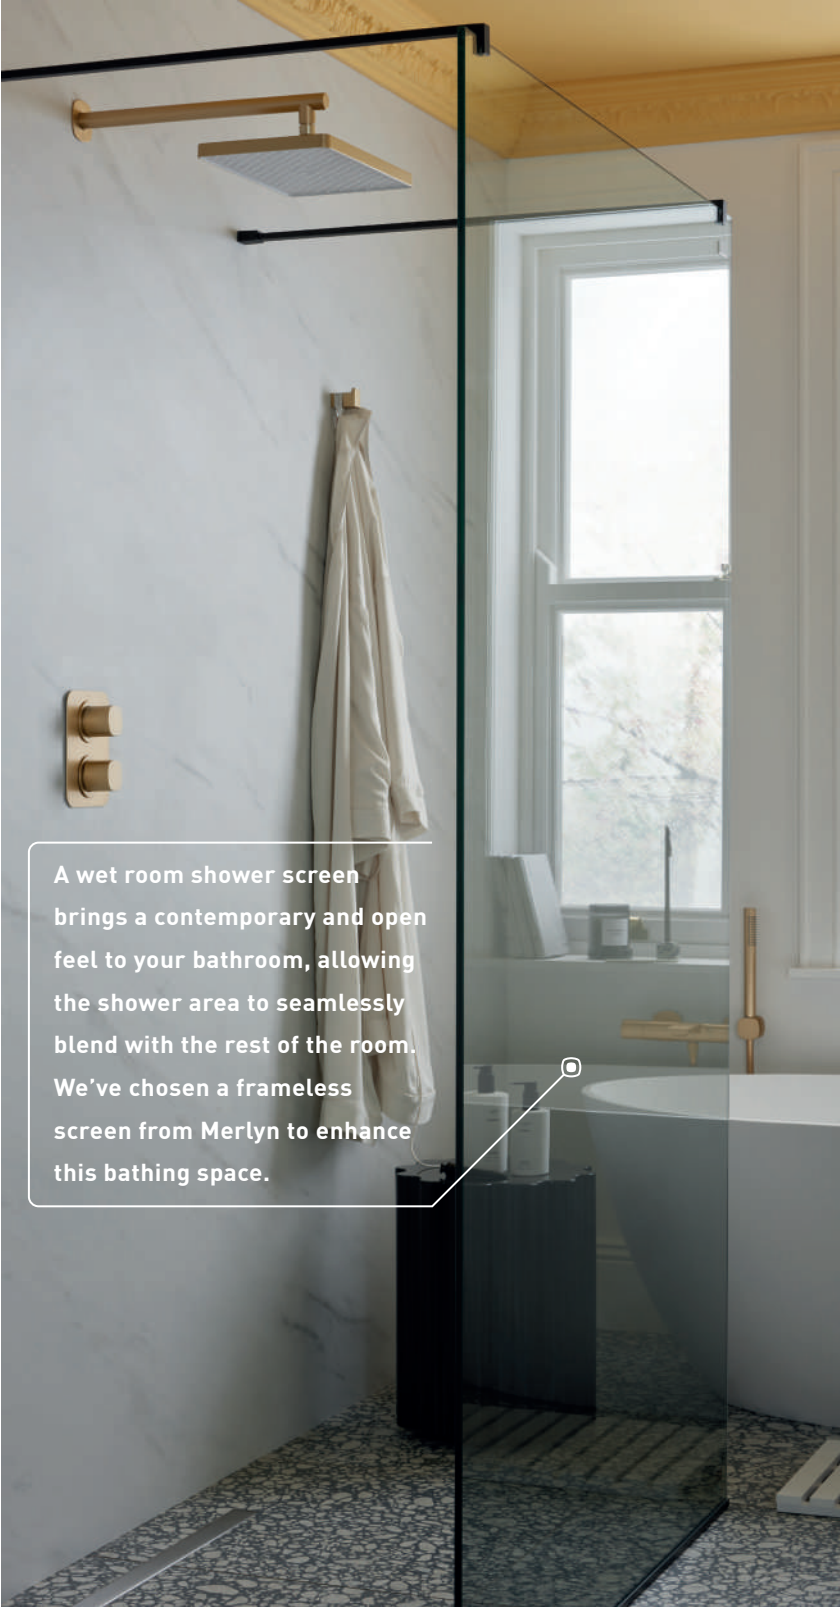

Terrazzo is a versatile and visually appealing material that is experiencing a resurgence in design. Go bold on floors or sparingly with décor items to bring a unique blend of texture and colour to your room.

*Spaces designed for self-care.*

Plush towels not only add a tactile layer to your design scheme in the bathroom they add a touch of luxury and comfort too.

A wet room shower screen brings a contemporary and open feel to your bathroom, allowing the shower area to seamlessly blend with the rest of the room. We've chosen a frameless screen from Merlyn to enhance this bathing space.

**Wash the stresses of the day away** in a freestanding bathtub or a spacious shower, this space is designed for self-care allowing you to indulge in moments of peace and rejuvenation.

# Coastal Vibes

Hardworking Bathrooms For Hardworking Families

Stripey towels in the bathroom can bring a playful and stylish touch. Whether it's classic navy stripes for a nautical feel or vibrant colours for a modern twist, they add a lively element to the space.

Wooden floors add warmth and a touch of character to a bathroom. Select moisture-resistant hardwood or wood-look tiles like we have for durability.

**Coastal bathroom styling captures the essence of a seaside retreat.** Using a colour palette of whites, greys, blues, and sandy tones paired with wooden elements for warmth. Nautical inspired touches such as rope or marine-inspired artwork can enhance the theme.

Strategically placed mirrors are great for reflecting light helping to create a bright and airy atmosphere.

Our Cove Blue vanity and colour matched basins were the obvious choice for this subtle coastal and serene design scheme. We have paired it with the neutral tones of matt white brassware for a stylish and balanced look.

*Light and airy coastal oasis.*

Coloured brassware and sanitaryware are simple ways to infuse personality into your bathroom while maintaining practicality and functionality.

Our dove blue basins bring a bold and refreshing statement to your bathroom; the perfect way to add character and a pop of colour.

**Dreaming of a clutter free bathroom?** Our vanity units have the answer to storing those daily essentials. With fully extending, soft close runners allowing you to reach the whole of the drawer with ease.

**Wall panelling in the bathroom adds a touch of classic elegance and texture.** Whether it's beadboard or sleek panels, this design element can transform walls, to create visual interest.

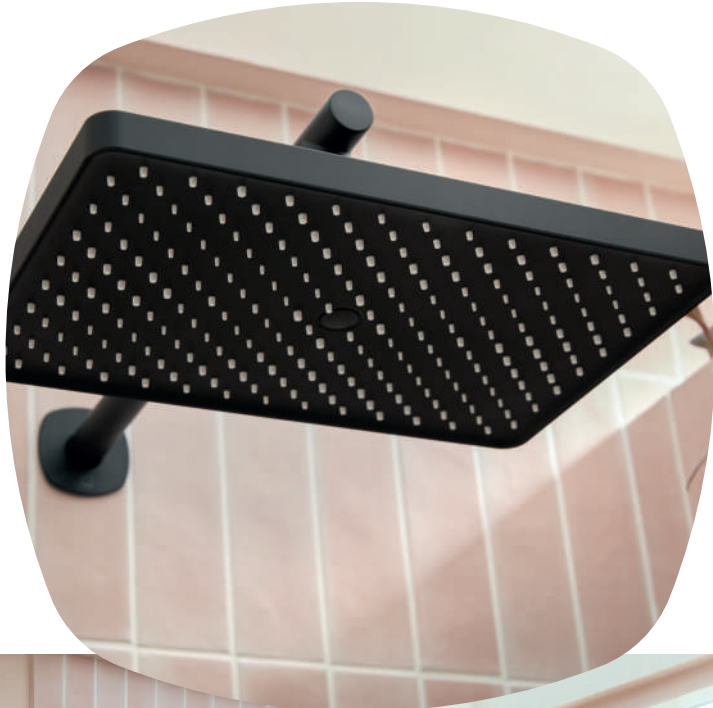

*Serene and refreshing.*

*A sophisticated space with a modern twist.*

Matt pink in the bathroom exudes a subtle, sophisticated vibe. Pair with contrasting matt black brassware and accessories for a striking and sleek on trend look.

**Vertical linear metro tiles provide a modern aesthetic;** perfect for creating a visually interesting and dynamic backdrop.

**Use a curved-topped shower screen to create a fluid and inviting feel;** a subtle way to add a touch of elegance to your bathroom.

*Tiny spaces,  
big impact.*

Despite being the smallest room in the home, a cloakroom is the place where you can really show off your unique, individual style to impress your guests.

Small basins need small taps, we have you covered.  
See page 61

Cloakroom mirrors are an essential addition, to create the illusion of space and light.

Create a feature with a pop of colour, patterned or unconventional shaped tiles.

A floating vanity unit adds functionality whilst neatly optimising the space you have.

Why not paint your woodwork in a statement colour to tie your entire scheme together?

Planning on keeping your wall décor simple? Statement floor tiles are a great way to add some personality to a compact room.
